State Superintendent
Of Public Instruction

Dedicated to growth and excellence

Oklahoma State Department of Education

Gerald E. Hoeltzel, State Superintendent of Public Instruction

The Honorable Henry Bellmon
Governor of Oklahoma

Members of the Oklahoma Legislature

It is no secret that a strong education system is essential to a strong economic system.

For the past several years, we have called your attention to the commitment to growth and excellence in education evidenced by partnerships between education, government, and business. Education continues to be a top priority benefiting from the efforts of citizens, local school districts, business organizations, service agencies, and institutions of higher education.

Oklahoma has always been dedicated to growth and excellence. As you read and reflect on this report, please be assured that commitment to educational excellence is alive and well in this state. The partnerships that we have all nurtured, and that continue to thrive, move us ever closer to the economic prosperity we all seek.

Respectfully submitted,

Gerald E Hoeltzel

Gerald E. Hoeltzel
State Superintendent
of Public Instruction

STATE BOARD OF EDUCATION

Gerald E. Hoeltzel	State Superintendent and President
Burl Bartlett	Tulsa
Cynthia J. Shepherd	Enid
Ray H. Potts	Oklahoma City
Forest W. Reece Jr.	Tulsa
Jimmy V. Scales	Edmond
Anne B. Fischer	Porter
Garreiine A. Jurko	Chief Executive Secretary

The State Board of Education is the governing board of the State Department of Education and the public school system of the state. These members also serve on the State Board of Vocational and Technical Education.

The Board consists of seven members. The state superintendent of public instruction, who is elected for a four-year term by the people, serves as a voting member and president of the Board. The remaining six members are appointed by the governor and confirmed by the Senate and serve staggered, overlapping six-year terms. A term expires each year on April 1. Each member receives travel expenses, as allowed by law, while in the performance of his duties.

The State Board of Education meets in regular session once each month. Special meetings may be called by the president or by a majority of the members of the Board.

The control of the State Department of Education and the supervision of the public school system is vested in the State Board of Education and its duties include:

- Establishing and prescribing the duties of its executive officer, one duty of which is to give advice and make recommendations on all notices pertaining to policies and administration of the State Department of Education and the public school system; and
- Adopting policies, rules, and regulations for operation of the State Department of Education and public school systems.

The chief executive secretary serves as the clerk of the State Board of Education and the State Board of Vo-Tech Education. She is responsible for staff direction of two people, future planning, and serves as liaison between the National Association of State Boards of Education and the two state boards.

Specific duties of the office are to process tax-sheltered annuity contracts for the Department; monitor and report on Due Process Teacher Hearings; write, edit and update Board publications and reports; maintain a long-range agenda; keep a history of Board members; write and preserve Board minutes; prepare agendas and arrange Board meetings; publish and preserve all rules and regulations as required by law; sign and seal all legal documents of the Boards; establish written office procedures; and prepare Board records for preservation at Records Center and Archives.

LEGAL SERVICES

The Legal Services Division is composed of an attorney and a secretary. The primary function of the division is to assist the state superintendent, State Department of Education, and State Board of Education in all legal and regulatory matters. In the past year, the division has represented the Department in several special education lawsuits, with extensive emphasis on litigation surrounding the Hissom Memorial Center. In addition, Legal Services has continued work on a major Federal audit exception.

Other activities engaged in by the Legal Services Division included representation of the Department at meetings of the Juvenile

Justice Oversight Committee, and participation in a training session for special education due process and appeal officers'. Also, the Legal Services Division has assisted in drafting and briefing attorney general opinion requests, advised the State Board of Education on legal matters, pursued revocation of teaching certificates, and worked daily with various other sections within the Department on legal matters.

SPECIAL ASSISTANT TO THE STATE SUPERINTENDENT

Assists the State Superintendent with special reports and projects; personally represents the State Superintendent on several Boards and Commissions; develops, manages and supervises a program of public information, including communications with the public, educational community, business and industry, the news media, and other state, local and federal entities, and coordination of news conferences.

The Special Assistant to the State Superintendent supervises the Community and Public Relations Section, Instructional Media Resource Center, Printing Services, Records Management, Research/Evaluation and Student Testing Services, Special Projects and the Word Processing Section.

Regular publications produced by the State Department of Education include the Oklahoma Educational Directory, the Annual Report (two volumes), and various other books, brochures and newsletters. Two of the most recent publications are titled, *The Oklahoma Report: An Update on Education*, and *Oklahoma Education: A New Spirit*.

The Special Assistant coordinates the master calendar as well as meetings for the State Superintendent's Advisory Council. The Special assistant serves on the Oklahoma Economic Development Committee in accordance with H.B. 1444 to help develop Oklahoma's Stretegic Five-Year Economic Development Plan for the State Department of Education. She also serves as liaison for the Governor's Education Committee, the Governor's Task Force on Aerospace Education, the Education and Its Impact on Economic Growth Task Force (H.B. 1444), the Oklahoma Commission on Educational Leadership, Martin L. King Commemorative Committee, Oklahoma Conference on Education, Oklahoma Veteran's Memorial Committee, Oklahoma Academy of State Goals, Oklahoma Committee for Safety Belt Use and the Oklahoma Business/Partnerships Committee. She represents the State Superintendent on the board of directors for Junior Achievement, Urban League, the Kirkpatrick Center, and is consultant to the Executive Board for Oklahoma Association of Elementary School Principals. The Special Assistant serves as an officer of the following organizations: Oklahoma Association for Supervision and Curriculum Development, the Educator's Hall of Fame, Oklahoma Women in Education Administration and the Aerospace Foundation of Oklahoma.

The Special Assistant directs the SDE involvement of in-kind services for special projects which combine the interests and needs of schools/business/community. Such projects include: Christa McAuliffe Fellowship Program, Children's Medical Research, "Salute to Oklahoma's Young Leaders," Oklahomans Helping Oklahomans, Take Pride in America Campaign, McGruff Puppet Program, and Martin Luther King Celebration.

The annual Oklahoma Conference on Education and the Oklahoma Commission on Educational Administration's public service announcements are other outreach community activities under the special assistant's direction. She attends all State Board of Education meetings, administers the electronic mail system for the Department and serves as liaison with the media.

Major tasks for the coming year are the publication of an additional progress report, an informational brochure on the SDE, expansion of the public service program, research articles on illiteracy, early childhood education, at-risk students, AIDS education and other pertinent issues.

COMMUNITY AND PUBLIC RELATIONS

The Community and Public Relations Section provides a steady flow of useful information to classroom teachers through the columns of the *Oklahoma Educator*, published nine times during the school year. Its columns are filled with reports on workable and innovative programs used by teachers which, through these reports, are shared with teachers throughout the state.

Sufficient copies are printed each issue for every classroom teacher in Oklahoma and are mailed to every school building in the state.

School administrators are also kept well-informed through the twice-monthly publication, *Superintendent's Newsletter*. This publication keeps local school district superintendents, building principals and school board members up-to-date on changes in the law, attorney general's opinions, changes in policy and regulation, State Board of Education actions and any other developments which affect the administration of local and state school affairs.

In addition, the news media is kept advised of school news through the publication and distribution of news releases as needed. The news media is also assisted, when requests are made, in arranging interviews with State Department of Education officials.

Many requests for information from the general public are also processed by the Community and Public Relations Section. Telephone calls received from the public are quickly channeled to the correct source in the belief that no one should be needlessly shunted from one office to another in the quest for answers.

This section also provides technical assistance, through typesetting, art and design work, for the preparation of curriculum guides, policy reports and other documents needed in the every-day business of providing educational materials.

A computerized mailing list of more than 6,000 addresses is maintained in this office for labels printed in the Data Center for use in all sections of the Department.

The Oklahoma Legislature, governor's office, budget office and local school district administrators are provided with an annual report, publication of which is coordinated by this office, and which provides the financial and statistical information needed in developing the annual budget for school operation.

INSTRUCTIONAL MEDIA SECTION

The Instructional Media Section has several services that it offers to Oklahoma School districts.

Programming on the Oklahoma Educational Television Authority (Channels 3, 11, 12 and 13) is provided by the section. These instructional television programs are broadcast Monday through Friday from 9:30 a.m. to 3 p.m. for a 32-week period during the calendar school year. It is also the responsibility of the Instructional Media Section to purchase, lease and/or produce the series selected for broadcast. The selection process is conducted on an annual basis utilizing expertise from various professionals in the field of educational programming, Instructional Television Advisory Committee and educators actively using ITV.

Annually the section prepares and distributes the Instructional Television Schedule booklet. The book provides basic information needed in order to use instructional television programming. During the 1988-89 school year, 17,000 ITV schedule booklets were disseminated statewide. For maximum utilization, more than 18,800 individual teacher guides containing extensive program descriptions and recommended classroom activities were available to teachers upon request.

The Instructional Media Library, located in the Media Section, contains approximately 2,000 individual titles consisting of videotapes, films, filmstrips and learning kits for usage in an educational setting in Oklahoma public schools. More than 6,300 copies were mailed to the 1,132 public schools during the calendar school year. A Media Resource Catalog is available for further information on the utilization and ordering procedures of educational materials.

The section maintains an inventory of media equipment available on a loan basis to state agency personnel, in addition to onsite facilities for viewing audiovisual materials and equipment inservice training.

Inservice training workshops are provided in the areas of instructional television integration into the classsroom, audiovisual utilization and media production, as well as technical equipment training conducted by the staff for educators statewide to include: administrators, teachers, library media specialists and department personnel upon request as needed.

The services are provided to further the philosophies and goals of the Department of Education and to enhance learning in our public school system through the electronic media and related fields.

PRINTING SERVICES SECTION

Printing Services performs various tasks of copy reproduction, offset printing, collating, binding, line copying, and halftone reproduction. The Printing Services Section is also responsible for various functions relative to the management of publications services for the entire department. These responsibilities include the following:

- Maintenance of all printing equipment and copiers owned or leased by the State Department of Education and its 24 Regional Education Service Centers.
- Compilation of printing cost and impressions records for each program in the department.
- Maintaining an up-to-date inventory of all department printing equipment and supplies.
- Printing Services maintains an on-hand stock of supplies and paper for all printing equipment in the section.
- Printing Services provides on-call professional services to the Senate for printing bills during the legislative session.

During FY89, the section produced 17,424,283 copies. With an average run length of less than 200 copies, this figure indicates more than 85,000 jobs during the period.

RECORDS MANAGEMENT

The administrator for Records Management is responsible for implementing Oklahoma Statute 67: Records Management; Oklahoma Statute 74: Preservation and Disposition of State Records; and Oklahoma Statute 65: Publications Clearinghouse.

The implementation of these Statutes has a guided, regulated procedure that is outlined in the *Records Management Manual* and the *Manual for Publications Officers*. These manuals are published and kept current by the Oklahoma Department of Libraries. Statutory responsibility of state records resides with the Department of Libraries.

The academic year, 1988-89, has been dedicated to writing *Goals for the Decade of the 90s*. The depth preparation for writing has been two-fold: analysis of achievements and reflection upon unachieved endeavors. These aspects have been the continuous, consistent agenda items in regularly scheduled meetings with the associate superintendent of Financial and Administrative Services.

SPECIAL PROJECTS SECTION

The Special Projects coordinator provides inservices to school districts by lending technical assistance in establishing public school foundations and provides follow-up visits to continue with the establishment and promotion of the newly formed foundations. This enlists efforts of cooperation of all groups in support of public education.

This section coordinates and works with the state consortium, promotes national attention to the role of the State in private sector initiatives and serves as a liaison with the Oklahoma Foundation for Excellence.

WORD PROCESSING SECTION

The Word Processing Section assists other programs within the agency in streamlining their copy-preparation functions for correspondence and publications. Staff members advise departmental program directors on the capabilities of the word processing equipment and help them select the best approach to utilize in preparing their projects for printing.

With their ease of editing, and staff attention to prompt turnaround, the word processors are ideal for preparation of camera-ready copy for department publications. Among those publications prepared in the section are the *School Laws of Oklahoma*, *Administrators Handbook* (blue book), *Oklahoma Educational Directory* (orange book), the *State Board of Education Regulations for Administration and Handbook on Budgeting and Business Management* (red book), as well as curriculum guides.

This equipment also allows time/cost efficiency in preparation of individually addressed mass mailings, as well as graphics capability for production of a wide variety of charts, graphs, grant applications, forms, state plans, bibliographies, transparancies and flowcharts.

During FY 89 the section was responsible for 100,201 pages and 10,024 envelopes, for a total production of 110,225.

Instructional Services

LIBRARY RESOURCES/ TECHNOLOGY SECTION

The Library Resources/Technology Section has the responsibility of providing technical assistance to local education agencies in all areas of library media services and technology. This section is also responsible for the Library Media Improvement and Small School Cooperative Grant Programs. Assistance is frequently requested in the following areas: facility design, materials and equipment selection, library automation, long-range planning and instruction in information skills.

Since 1978, the state legislature has appropriated funds for competitive grants for schools to develop new library media centers or to improve existing ones. The 1988-89 appropriation was for $2,850,114. This funded 129 new projects and continued 92 others for a total of 221 projects. The appropriation for Small School Cooperative Grants was $1 million. Fifty-nine grants were awarded; 33 of these were one-time grants for satellite instruction. One hundred twenty-nine districts offered instruction by satellite.

The Oklahoma School Video Consortium is also the responsibility of this section. This program gives participating districts access to almost 500 quality video titles with the rights to duplicate for all sites within the district. An annual catalog of titles is provided to all members.

Five professional library media specialists conduct a variety of inservice workshops for teachers, library media specialists and administrators in districts, in addition to the two-day Encyclo-Media workshop. The 1989 workshop attracted more than 1,700 participants and 103 exhibitors.

Numerous publications were developed to assist library media specialists in selecting materials, give instruction or plan for improvements. *Guidelines for Library Media Programs in Oklahoma* has been totally revised. Forty-eight publications are available from this section, 10 of these are annotated bibliographies updated on a semi-annual basis. Four of the publications provide information about the two Sequoyah Book Awards.

STAFF DEVELOPMENT/ ENTRY-YEAR/ TEACHER EVALUATION SECTION

The director of the Staff Development/Entry-Year/Teacher Evaluation Section is responsible for the administration of three major programs. The Entry-Year Assistance and Staff Development Programs were mandated by 70 O.S. 1981, §6-150 and 158. To provide assistance regarding the programs and ensure that schoolsf are in compliance with the regulations, four field-based coordinators are responsible to visit each of the state accredited schools. More than 7,800 beginning teachers have participated in the Entry-Year Assistance Program since 1982.

Each state supported school district develops a plan that will strengthen instruction by providing opportunities for teacher inservice training and continuing education. This staff development plan must be approved by the local board of education and the State Board of Education. This section works with school districts to provide assistance to help schools comply with staff development procedures and regulations.

Another requirement for schools is the implementation of the Minimum Criteria for Effective Teaching and Administrative Performance, as mandated by 70 O.S. 1985, Supp., §6-102.2. The criteria were written by a committee of educators representing the different areas of education. After State Board approval of the criteria in December

1985, video and printed materials were prepared for training and distribution. Approximately 4,000 evaluators of certified personnel were trained in the use of the criteria at 105 sites in two-day sessions in April 1986. All training materials were placed in the 613 school districts to assist the schools with teacher training pursuant to the criteria. Training workshops for newly identified evaluators will be offered at appropriate intervals throughout the year.

Training for First Year Superintendents in Oklahoma is a program that requires attendance at four seminars as follows: one week-long session in July; three sessions two days each during the school year. Since 1983, 237 superintendents have completed the program.

A training program similar to the First Year Superintendents in Oklahoma is available to principals of dependent schools on a voluntary basis. The first seminars for dependent school principals were held during two two-day sessions in August and October of 1987.

The Oklahoma Teacher of the Year Award is an annual recognition process managed by the section. The Oklahoma winner is nominated for competition at the national level by the State Superintendent of Public Instruction. The overall program is sponsored by the Council of Chief State School Officers, Encyclopaedia Britannica, and Good Housekeeping Magazine.

TEACHER EDUCATION/ CERTIFICATION SECTION

In January 1988, the separate sections of Teacher Education and Teacher Certification were again combined into one section with many diverse, though complementary, duties.

Teacher education and certification has undergone drastic changes during the past five years. Standards of teacher education programs have increased considerably, thereby including Oklahoma among the states with the highest standards for the teaching profession.

Oklahoma uses an "approved program" approach to teacher certification. Each institution of higher education which prepares teachers must have it's teacher education programs accredited by the State Board of Education. The 21 institutions of higher education which prepare teachers and administrators are evaluated by Teacher Education. As of July 1988, those institutions with NCATE accreditation are jointly evaluated by NCATE members and the state teacher education administrator and team, thereby lessening the need for large visiting teams. Teacher Education assists colleges and universities in developing teacher education programs that meet the standards established by the Professional Standards Board and approved by the State Board of Education.

The faculty development program for teacher educators in the colleges and universities is administered through Teacher Education. The directors of teacher education programs at the colleges and universities are assisted with the interpretation of the teacher certification standards when needed.

By Oklahoma law, anyone serving in the capacity of a teacher or administrator in the state must hold a valid Oklahoma teaching certificate in the area to which he is assigned. Certification is a process through which a state officially recognizes an educator as a professional. A teaching certificate verifies that an educator has completed the preparation required to practice in a given field of teaching, leadership or service and is entrusted by the state to perform in the best interests of students.

Standards for teacher preparation and certification reflect the philosophy inherent in the total educational program of a state. The state of Oklahoma ranks at the top nationally in the area of professional standards for teachers.

The Teacher Education and Certification Section provides a guarantee to the parents and children that the teachers in the state's classrooms meet adequate and appropriate academic standards which have been set by the Oklahoma State Board of Education.

The role of the Teacher Education and Certification Section is to issue appropriate teaching certificates to those who have completed approved teacher education programs and have been recommended for certification by an authorized official at an Oklahoma college or university. It is the further responsibility of this section to evaluate credentials of teachers who have completed their teacher education programs in another state. In addition, teachers who apply for renewal of their standard certificates are evaluated.

The Teacher Education and Certification Section maintains a permanent teacher certification file of every teacher who is certified. The records of active teachers contain official transcripts, applications, certificates issued, evaluation checksheets, verification of degrees, and copies of all correspondence with the teacher. A record is also kept of all teachers who have been certified since 1925.

As mandated by law, the Teacher Education and Certification Section, with the cooperation of the Oklahoma State Bureau of Investigation, can provide school districts with criminal history records of district employees or prospective employees.

The teacher education and certification process requires a close working relationship with the Teacher Testing/Staff Development, School Accreditation, and Teacher Personnel sections. Maintaining close ties with other state departments of education is necessary regarding teacher certification standards and the revocation of teaching certificates.

From July 1988 through September 1989, the Teacher Education and Certification Section issued 28,336 teaching certificates. This number reflects renewals of professional, standard certificates/endorsements, and licenses, new standard, provisional, emergency certificates, and licenses.

TEACHER TESTING SECTION

The Teacher Certification Testing Program is administered by the Teacher Testing Section. A contract is negotiated annually with a national research and testing firm, which assists in the development, revision and administration of curriculum exams mandated in 70 O.S. 1981, §6-156 and 70 O.S. 1985 Supp., §6-162. The State Department of Education tests more than 4,000 examinees a year, over four test administration periods, at six different sites throughout the state for each administration. Test administrators are psychometrists and administrators from Oklahoma Regional Education Service Centers. Coordination of the registration process, site selection, test revision meetings, reporting of test results and media communications is done by the section.

ACCREDITATION SECTION

The Accreditation Section is an integral part of the Division of Instruction of the State Department of Education. The Accreditation Section is charged with the leadership and the responsibility to interpret the policies and criteria as prescribed by the State Legislature and the State Board of Education under the direction of the state superintendent of public instruction.

The Accreditation Section is composed of a director, two assistant directors, three secretaries and 19 regional accreditation officers. The regional accreditation officers have specific responsibilities and serve specific counties based on density of size and the number of schools in the assigned areas. The regional accreditation officers are responsible to the Division of Instruction and the director of the Accreditation Section.

Accreditation of the public schools in Oklahoma is the function of the State Board of Education. The responsibility of meeting the standards of accreditation lies with the local school district. It is the policy of the State Board of Education to accredit schools primarily on the quality of instruction.

Elementary schools in high school districts are expected to meet standards and regulations for accrediting before the secondary school can be accredited.

Accrediting depends largely upon instructional conditions maintained in the elementary and secondary schools. Command of the fundamental processes is considered of primary importance in all subsequent education. Consequently, the entire program of education is examined as a basis for accreditation.

It is the policy to consider stability and permanence of the school organization and teaching staff as factors in accrediting schools. Frequent changes in the organization of the teaching staff directly affect the continuity and efficiency of instruction.

Each school is expected to meet the standards and regulations for accrediting at the opening of the term and to maintain these standards throughout the entire year.

The regional accreditation officers are responsible for visiting every school within their assigned area for the purpose of assisting schools in meeting required standards and recommending those schools to the administrator of the Accreditation Section who in turn presents and recommends them to the State Board of Education for accreditation for the preceding school year.

In addition to public schools in our state, legislative provisions are made to accredit parochial and private schools "in like manner" as public schools. During the 1988-89 school year 41 schools in this category were accredited by the state department. These schools are also the responsibility of the regional accreditation officers. The regional accreditation officers are responsible for the areas of monitoring local school board policies, physical facilities, properly certified and assigned teachers, curriculum/program studies (includes mandated areas involving House Bills 1816 and 1466), inventories, school year, school day, class size, teacher-pupil ratios, special education, Chapter 1 programs, attendance audits, activities regulations, etc.

During the preceding school year (1988-89) the accreditation section visited and recommended the following: 456 independent districts representing 504 high schools, six parochial high schools, 199 junior high schools, 145 middle schools, 40 area vocational technical schools, 154 dependent elementary schools, 37 parochial schools and four private schools.

North Central Association

The Accreditation Section is involved in a dual accreditation process. The North Central member schools in our state are also the responsibility of the regional accreditation officers. The North Central State Association is under the direction of the director of the Accreditation Section who serves as state North Central director. The assistant director for North Central, the assistant director for state accreditation and two regional accreditation officers serve as associate North Central directors. Two secretaries, along with the regional accreditation officers are also a part of the North Central accreditation process.

During the 1988-89 school year 170 secondary schools, one college preparatory school, 23 area vocational-technical schools, 149 elementary schools, 49 junior high/middle schools, four special functions schools, eight unit schools and 20 schools for candidacy were recommended by the Oklahoma State Committee of the North Central Association to the Commission on Schools for accreditation.

Eighty-five schools were evaluated by an on-site visiting team composed of 18-25 educators from colleges and universities, teachers and administrators from NCA schools and State Department of Education personnel directed by a State Department of Education regional accreditation officer.

Thirty-three schools had an NCA mini-visit as a follow up to their third year progress report. The mini-visit teams were composed of two State Department regional accreditation officers and/or North Central directors.

Each school recommended for accreditation to the Commission completed an application which was certified as correct after an on-site visit and review by the regional accreditation officer. The state committee also reviewed the applications and then made its final recommendation.

An annual meeting of NCA administrators was held for the purpose of discussing current issues and the new policies and standards. Also, workshops were conducted for those schools that are to become involved in the self-study process and be reviewed by an on-site visiting team.

ARTS IN EDUCATION SECTION

Since 1975, the Arts in Education Section has actively responded to school districts expressing a desire to develop a comprehensive arts program. The components of a comprehensive arts program include:

Arts education: sequential skill development in the major art forms: music, art, drama, dance.

Arts in basic education: integration of arts and other areas of basic skills.

Specialized arts: intentional integration of arts into the curriculum for special learners.

Resources: effective use of arts resources.

Competitive grants are available through the Arts in Education Section to assist 78 school districts and approximately 300 school sites with program implementation. These sites represent a geographic balance throughout the state and include rural and metropolitan school districts.

Networks

A formal network structure is a positive and distinctive feature of the arts in education program. The network is composed of:

Administrative network which includes administrators from each AIE grant site who meet on a regular basis to design "futuristic" implementation strategies.

Arts coordinator network which includes an individual (full- or part-time) from each grant site who serves as a liaison between the local school district and the State Department of Education and is directly responsible for program implementation.

Arts planning teams which include arts educators, classroom teachers, administrators, students and community leaders who plan specific programs at the local level.

Within the Arts in Education Network during FY 89, more than:

77,638 students were involved in the AIE program

3,841 teachers implemented the program

180 Arts Planning Teams were actively involved in planning

158 staff development experiences in the arts were implemented

1,784 teachers attended AIE staff development experiences

329 weeks of local resource artists and 65 weeks of other arts resources were presented

74,012 people in various communities throughout the AIE network participated in AIE school/community arts experiences,

and approximately 516 weeks of Artists in Residence were presented.

The Program

The arts in education program is designed to meet the needs identified through the AIE assessment. Specific objectives are identified for each site and implementation strategies and timelines are determined. Examples of programming might include:

1. Attention to a specific art form (writing, drama) not presently addressed in the school curriculum.
2. Expansion of an existing art form. Example: environmental metal sculpture, poetry anthologies, etc.
3. Concentration on teacher training.
4. Community outreach involving individual local artists and arts organizations as well as parents.
5. Attention to a specific component of the program. Example: training classroom teachers, expanding content of existing arts classes.
6. Appropriate arts experiences for a specific school population (gifted, special education).

Resources & Staff Development

Approximately 400 weeks of artist residencies representing all art forms were awarded to AIE sites from the State Arts Council of Oklahoma. Residencies included teacher training workshops and direct contact with students. In addition to these workshops, numerous teacher training sessions were conducted throughout the state to accommodate special interests of teachers and administrators.

Evaluation

Mid-year and end-of-year assessments were used as indicators of progress in each district. The Arts in Education staff provided technical assistance based on these reports and communicated through network meetings and on-site visitations with each district to see that program objectives were being met. Although objectives at each grant site were many and varied, each represented movement toward stronger arts programs for all children.

Special Projects

Very Special Arts - Oklahoma (VSA-O) is a state affiliate of the National Very Special Arts Program through the Kennedy Center for the Performing Arts in Washington, D.C. The intent of this program is improved arts curriculum designs for the handicapped population. In addition to year-round programming, local, regional and state Very Special Arts Festivals are conducted throughout the state to celebrate artistic achievements of the handicapped population and to bring public visibility to the artistic needs of the handicapped population. The program has as its primary focus three model sites:

1) Oklahoma School for the Deaf
2) The Gatesway Foundation
3) Lawton Public Schools

COMPREHENSIVE HEALTH/ DRIVER EDUCATION SECTION

The Comprehensive Health/Driver Education Section staff helps plan and implement numerous health and physical education programs, as well as administering the driver education program in the public and private schools of Oklahoma. Examples of areas in which the staff is working to improve instructional programs currently include such topics as physical fitness assessment, relaxation techniques, drug education, AIDS prevention education and nutrition, as well as vision/hearing and scoliosis screenings.

The staff organized and conducted approximately 400 workshops concerning comprehensive health issues in an attempt to disseminate current information, methods, techniques and uses of material at all grade levels. These inservice workshops embrace those processes of communication and education which help individuals learn how to achieve and maintain a healthy lifestyle.

With the legislature's appropriation of $300,000 for Health and Nutrition grants, 61 schools across the state were funded in order to implement, or to continue development of, healthy living curricula. Monitoring and evaluation visits were made to each school throughout the year.

Coordinating the school nurse program is an ongoing responsibility of the staff. Assistance was given in a statewide school nurse workshop, providing the latest information on school nurse services and health education promotion.

Cardiopulmonary resuscitation (CPR) is no longer a mandated program, but the Comprehensive Health Section continues to train and certify teachers and administrators in the lifesaving technique of CPR. Ten CPR workshops were conducted, certifying nearly 200 school personnel in basic CPR rescue.

In October of 1986, the President signed the Drug-Free Schools and Communities Act of 1986 omnibus drug education bill. The State Department of Education responded by assigning a member of the Comprehensive Health Education staff to work full-time in implementing this federal program. Oklahoma received approximately $1.8 million for prevention education programs in the schools during the 1988-89 school year, with 303 schools participating in the grant program.

During the 1988-89 school year, the staff presented and participated in 55 workshops covering a wide range of drug education topics but focusing on positive prevention education programs. The staff also participated in several interagency drug education efforts such as the Chemical People Project (A Generation At Risk), the Oklahoma Adolescent Health Task Force, Prevention Education Specialist curriculum planning, the Central State University Health Education curriculum planning committee, Dare To Be You, "Drugs Destroy Dreams," Students Against Drunk Driving and the Governor's Task Force on Children and Youth.

In addition, the staff participated in various community efforts such as the Oklahoma Alliance Against Drugs, and supported Youth Court activities in several Oklahoma cities.

The growing concern nationally for fitness among children resulted in the formation of a search committee to explore fitness assessment instruments and programs available for implementation. The "Physical Best" program developed by the American Alliance for Health, Physical Education, Recreation and Dance was noted as a comprehensive fitness program.

An "Idea Sharing Day" for elementary and middle school physical educators was co-sponsored and organized by the Comprehensive Health Education section, with 105 teachers attending.

Homemade equipment, classroom games, rhythmic activities and fitness development were a few of the topics covered during programs for teachers across the state.

Two sub-areas were added to the Comprehensive Health Education section during 1988-89: Driver Education and AIDS Prevention Education. As a part of the $215,000 grant from the National Centers for Disease Control, AIDS Prevention Education instructors from eight pilot schools received in-depth training in the different aspects of

AIDS as a virus, the effect it has on the individual and its impact on the community. Instructors were trained in available supplemental resources and their uses, enabling them to assist with AIDS Prevention Education workshops in their districts across the state. The primary objective of this activity was to ensure that pilot project schools implement an effective AIDS Prevention Education program within the health and physical education or science content areas taught in their districts.

A statewide workshop was provided during February on AIDS Prevention Education with the keynote speaker, Dr. Stephen R. Sroka, providing an update on the latest information concerning AIDS Prevention Education. Approximately 2,000 invitations were sent encouraging health and physical education and/or science instructors to attend. More than 100 school districts, the majority of them rural, were in attendance.

Inservice training is being provided on a continuing basis to administrators, teachers and other professionals by the coordinator for AIDS prevention education. More than 190 districts have been served from Dec. 1, 1988 to Oct. 1, 1989.

The Driver Education area revised numerous forms, mailed more than 1,000 permit packets, processed 500 instructor permits and also processed student permits for more than 500 school districts, allowing for payment of $1.6 million in reimbursement to eligible high schools for the 1988-89 school year.

Program evaluation is a vital function of the staff as they continue to participate on North Central evaluations and evaluation teams for health and nutrition education grant programs.

One primary staff responsibility is to provide vision and hearing screening in the schools. This screening is essential to detect potential problems early enough for remediation or correction. If such services are neglected, the child's learning can and will be affected.

During 1988-89, 14,958 students were screened in 24 counties and 101 schools, which resulted in more than 2,000 suggested referrals. Scoliosis screening is also offered as a service to the schools.

Cooperating agencies are a vital resource to efforts to promote health education and healthy lifestyles throughout Oklahoma. The American Heart Association; American Red Cross; State Health Department; State Mental Health Department; Oklahoma Health Planning Commission; Oklahoma Association for Health, Physical Education, Recreation and Dance; American Lung Association; Dental Health Association and Oklahoma Medical Association coordinate with the staff to disseminate current ideas, methods, techniques and materials to the public schools of Oklahoma

CURRICULUM SECTION

The Curriculum Section has continued over the past year to evaluate curricular needs for Oklahoma schools. The section has coordinated and developed curriculum activities, inservice materials and publications.

More than 2,000 inservices were provided to educators over the state in all basic skill areas as well as techniques and methods to improve classroom management and to meet individual needs of the child.

Thirty-three early childhood education and 45 alternative and at-risk education grant programs were monitored.

Publications were disseminated to school districts in Oklahoma as well as the United States and countries throughout the world.

More than 3,000 catalogues were mailed to schools listing computer programs available for copying based on the type of computer used. More than 3,500 public domain programs are also available for schools to copy. An extensive collection of loaned microcomputer software is housed for schools to preview before a decision is made to purchase the programs. MicroSift software evaluations are sent to many schools on a continual basis. The section also maintains an Apple Computer Lab and an IBM MS-DOS Computer Lab that offer the most current technology to instructional computer instructors across the state. The labs are also used for statewide teacher inservice training on hardware and software.

The section continues to work with national organizations, other departments of education and educational laboratories to promote excellence in education.

GIFTED/TALENTED SECTION

The Gifted/Talented Section, consisting of one administrator and two coordinators, has the responsibility of overseeing Oklahoma's mandate for gifted education (70 O.S. 1981 sections 1210.301-307). The statute requires that all schools provide differentiated instruction for students identified according to criteria included in a locally written policy.

The staff provides technical assistance and inservice upon request of local school district personnel. These requests are varied and coordinators strive to meet the individual needs of each local education agency.

The section annually hosts fall workshops. This year the workshops were offered in two sets. The first set was designed to meet the needs and answer questions for educators new to gifted education, while the second set focused on more advanced strategies. The sessions were offered at the state lodges with total participation of approximately 750 educators.

The Gifted/Talented Section coordinated Oklahoma's grant writing efforts for the Jacob K. Javits Gifted and Talented Students Education Program through the U.S. Department of Education. One grant proposal involved private and public universities and agencies working together to offer courses for the gifted/talented endorsement through a combination of satellite instruction and on-campus seminars. The other proposal would involve Oklahoma in the National Exemplary Program Consortium. We would implement the flexible pacing portion of the Pyramid Model through model sites. These model sites would receive minigrants and intensive inservice and technical assistance.

The staff participated in the annual meeting of the Council of State Directors of Programs for the Gifted; Council for Exceptional Children; the National Association for Gifted Children; the Oklahoma Association for Gifted, Creative and Talented; Oklahoma Women in Educational Administration; Oklahoma Association for Supervision and Curriculum Development and the State Superintendents' and Principals' Workshop, as well as serving on North Central accreditation teams and judging the annual State Academic Bowl.

GUIDANCE & COUNSELING SECTION

During the 1988-89 school year, the Guidance and Counseling Section consisted of a director, three coordinators and an administrative assistant. The major function of the section is to provide leadership in the implementation and improvement of developmental guidance programs in public schools across the state.

Building Skills for Tomorrow: A Developmental Guidance Model is the resource and planning guide for guidance and counseling programming. The guide is a model designed to be a framework for the development of programs which systematically address the learning, personal/social and career vocational needs of all students. The guide emphasizes structured and accountable programs which are preventive in nature.

The section has had the responsibility of monitoring state-funded career education programs. During the 1988-89 school year, the Oklahoma Legislature funded 22 career education programs with $135,144. These programs were monitored by the Guidance and Counseling Section during the school year through visits to the school sites to see that the schools were in compliance with regulations stipulated for the grants.

Functions of the section include: working cooperatively with the State Department of Vocational-Technical Education, assisting colleges with counselor education programs, working with professional counselor groups, providing professional staff development opportunities for Oklahoma school counselors, coordinating support services for the State Health Department and assisting other state agencies such as the Oklahoma Employment Security Commission, Vocational-Rehabilitation and the Mental Health Agency. The section also disseminates information concerning the Oklahoma Academic Scholar Program, Concurrent Enrollment, Advanced Placement and ACT/test scores.

The staff continues to promote excellence in education through developmental guidance and counseling services for all Oklahoma students.

STATE READING/ STUDENT TESTING SECTION

The continuation of the reading program and execution of the student testing program responsibilities are described as follows:

Services Offered In Reading

- Needs-based inservice continues to be the major focus of the section's work in reading. Through the continuous, needs-based on-site inservice program provided by this section, the consultants are able to aid school personnel with evaluation of programs at all levels, instructional strategies and activities which are appropriate for meeting specific learning objectives, and planning/implementing reading programs in grades K-12.
- Development of materials containing practical ideas for teaching all of the various reading and related thinking skills is a priority. Hundreds of handouts and 12 major curriculum guides had been developed, published, and distributed with inservice by the end of 1987 to aid teachers in meeting students' instructional needs. The curriculum guides include *Reading Sampler* (revised 1983); *Metamorphosis: Challenging the Gifted Reader* (1982); *Parents, Kids, Teachers, Inc.* (1982); *Principals/ Reading: The Vital Connection* (1982); *Follow the Leader: Teaching English to Speakers of Other Languages* (1982); *OK-NEWS* (1983); *Kaleidoscope: Teaching Creative Reading, Thinking, and Writing Skills* (1985); *Mission Possible: Handling Reading Problems in the Regular Classroom* (1985); *Seeds of Freedom* (guides for K-6 and 7-12 to help teachers commemorate the life, philosophy and accomplishments of Dr. Martin Luther King, Jr., 1986); and *Teaching Reading in the Content Areas* (1986).
- Suggested Learner Outcomes in Reading were developed for grades 1-8 (1984) and 9-12 (1985) in conjunction with the Curriculum Section's work. These teaching/learning objectives have been distributed to requesting school faculties with inservice.
- The OK-NEWS program continues to be implemented and maintained in requesting school districts. Piloted with 100 schools in 1982 to encourage teachers to use the newspaper as a tool in teaching reading and creative writing skills, OK-NEWS continues to be used K-12 in many schools throughout the state.
- Over 700 schools continue to utilize portions of "Read On, Oklahoma!—A Five-Year Plan to Enhance Reading Achievement," implemented in 1984. This plan features motivational ideas to enhance reading as well as an outline to aid schools in evaluating and improving local school and district reading programs over a five-year period.
- A focus has been placed on encouraging schools to implement secondary reading programs to fit the instructional needs of students at all levels of reading abilities. Each year several schools are added to the list of those who continue to teach reading skills beyond the fifth and sixth grades. Services offered in implementing such programs include planning for staff, scheduling, and other organizational needs; determining the needs of students who will participate; developing entrance criteria and screening methods; providing guidelines for selection of materials and placement of students in appropriate levels of materials; designing facilities to meet program needs; and organizing all factors for individualizing the reading program.
- The section consultants work closely with and help provide leadership for Oklahoma Reading Council, a professional organization whose philosophy and goals focus on improvement of reading instruction throughout the state. In addition, section personnel have provided national exposure of Oklahoma's program through presentations at the International Reading Association and the World Congress on Reading conventions.
- The Reading/Student Testing Section collaborated with the Oklahoma Department of Libraries and the Department of Human Services on implementing "1989—The Year of the Young Reader," a project which is jointly sponsored nationally by the Center for the Book and the Children's Literature Center in the Library of Congress. The goal of this project is to give youth the gift of reading—motivating students to learn to seek reading as a leisure time activity. During 1988-89, the state

reading counsultants will be conducting awareness inservices statewide to administrators, teachers, and parents to encourage participation in "The Year of the Young Reader." Manuals have been developed for classroom teachers and librarians. These include motivational reading activities, parent newsletters, and resource lists to help promote the enjoyment of quality children's literature.

Oklahoma School Testing Program (OSTP)

The Education Improvement Act of 1985 (H.B. 1466) mandated that a standardized, norm-referenced test be administered to students in grades 3, 7 and 10 statewide. The purpose of the program is "to afford a component for use along with other pertinent data in evaluating the effectiveness of the public schools as shown by the competence and progress of pupils in basic skills" (H.B. 1466). The skills measured by the test are reading, language arts, mathematics, science and social studies. The function of the OSTP is "through applied research . . . to improve all phases of the state public educational system" (H.B. 1466).

To initiate the test selection process, a Request for Proposals (RFP) describing Oklahoma's need for specific materials and services was released to test companies nationwide. Using evaluation instruments containing more than 100 criteria, two statewide committees collectively comprised of 80 educators reviewed the four bids received. Based on the review committees' recommendation, the State Board of Education selected the Metropolitan Achievement Tests, 6th Edition (MAT-6), published by The Psychological Corporation, as the instrument for Oklahoma's use.

Tests have been administered annually in 1986 through 1989 to an average of 40,000 students in each of grades 3, 7 and 10. Students with Individualized Education Plans pursuant to P.L. 94-142 participate in the OSTP only with written parental permission.

In compliance with the mandate in Oklahoma statutes, the State Reading/Student Testing Section annually provides pre-test inservice for all schools. Topics include implementation procedures, test content/objectives, maintaining test validity, test security requirements, and procedures for handling tests and related materials. Served each year in more than 350 inservices are approximately 8,500 test administrators, building and district test coordinators and school administrators.

A post-test inservice is conducted annually for all cooperating schools on (1) decoding information on test score reports; (2) interpretation of data; and (3) use of test results at the local classroom, building and district levels for improvement of instructional programs (e.g., aid in compliance with H.B. 1466 regarding use of test scores in developing the Five-Year School Improvement Plans).

In 1986, Oklahoma law mandated the administration of a direct writing assessment to students in 10th grade beginning in 1986-87, and in grades 7 and 10 beginning in 1987-88. As a component of the OSTP, this program focuses on measurement of students' actual writing skills. Employing the state bid process and same evaluation procedures used in the OSTP, the State Board of Education selected the MAT-6 Writing Test, published by The Psychological Corporation, for use in measuring the writing skills of Oklahoma's seventh and 10th grade students.

Continued maintenance of the OSTP includes providing both pre- and post-test inservices on both phases of the testing program for all schools statewide. Services within the post-test inservice program have been expanded at school administrators' requests to include interpretation and use of test scores for improvement of instructional programs in all grades 1-12.

TEXTBOOK SECTION

The Oklahoma textbook system was established by an act of the 21st Legislature and became effective July 1, 1948. The law was based on an amendment to Section 6 Article XIII of the Oklahoma Constitution. This amendment directed the legislature to provide a system of free textbooks for use by all pupils in the common schools of the state. The amendment required the governor to appoint a State Textbook Committee whose duty is to prepare an official multiple textbooks list for use in the common schools of the state.

The State Textbook Committee is now comprised of 13 members. Two members are appointed from each of the six congressional districts. All must be certified educators with at least five years experience. The 13th member is a lay citizen educator not having a teaching certificate and having at least one child in the Oklahoma public school system. The committee must contain a majority of classroom teachers. Each member serves a three-year term. The terms are staggered with four new educators being named each year and the lay member every third year.

The responsibility, as defined by law, of the State Textbook Committee is to select up to 10 textbooks or series of textbooks for each subject for a period of not more than five years. The consideration process begins each year the last two weeks in May when a call-for-bids is issued to all publishers inviting them to submit their materials for adoption in those subjects called. During 1988-89 the State Textbook Committee considered materials in science and fine arts.

Bids must be received before August 15. Samples of all items bid are furnished to the Committee and their advisors as well as to the State Textbook Section and to six congressional review centers. Materials are available to the public, and during the last two weeks in October public hearings are held before the State Textbook Committee allowing citizens of Oklahoma who file a written request to appear and present testimony about materials up for adoption. Then, before Dec. 1, the committee meets and adopts textbooks.

Immediately upon completion of the adoption process the Textbook Section prepares and distributes to all school districts in the state an official adoption list. A system of samples for evaluation purposes is available to all schools through the textbook office. These samples must be requested by requisition from the school no later than Nov. 30 each year and shipment will be made to requesting schools after Jan. 1.

Local school districts go through their own textbook adoption process as required by law before June 1.

When the legislature appropriates money annually for textbook purchases, money is withheld in the textbook office for freight and handling and for the replacement of textbooks destroyed by fire, water, tornadoes or other natural disasters. The 1988-89 appropriation was $10,276,624 or $18.40 per student based on ADA.

During the 1988-89 school year, two schools required replacement of materials destroyed by fire, water or tornadoes. Those claims totaled $9,037.59. Unused money withheld from appropriations for replacement, freight and handling was carried forward to the 1989-90 school year and added to the new appropriation before its allocation.

The Textbook Section processes all correspondence authorized by the State Textbook Committee. This includes calls-for-bid, calls-for-substitution, bid processing, contracts and bonds between the state and publishers, verification of contracts and bonds with the attorney general, filing of contracts and bonds with the secretary of state, notifications to schools of new adoptions or procedures, sample requests and incidental correspondence.

Another responsibility of the Textbook Section is the development and distribution of the Annual Textbook Requisition. It then becomes our responsibility to process the annual requisitions and subsequent supplemental requisitions for textbooks. During the school year, the Textbook Section processes approximately 2,000 requisitions. This requires that purchase orders be made, verifications be received and filed, warrants issued and accounts balanced for each purchase order. Account records are maintained within the Textbook Section for all school districts.

Coordination and communication among the Textbook Committee, the State Department of Education, publishers, depositories and each school district in the state are of paramount importance.

The Textbook Section has the responsibility of maintaining a smooth and effective textbook evaluation, selection and distribution process. Their effectiveness influences the most important aspect of the system: the quality of education for the students in Oklahoma.

Financial & Administrative Services

FISCAL SERVICES

Fiscal Services serves as the internal business office for the State Department of Education.

Accounting records are maintained on a computerized double-entry transactions system which includes all functions necessary to provide management with quantified information for planning, controlling and reporting the financial condition and operations of the agency. This system, which provides an advanced degree of internal accounting control, aids in upgrading data output necessary for maintaining accurate and reliable accounting records for administration and for federal and state auditors.

All forms, systems and procedures for administering accounting for the department and establishments of state government are prescribed by the director of the Office of State Finance. Fiscal Services adheres strictly to these regulations, advises education officials and employees responsible for the receipt and disbursement of public funds of the principal laws governing the state's fiscal operations and assists these persons in following necessary procedures.

Support functions provided by Fiscal Services include:

Payroll: Staff members are responsible for preparing and distributing payrolls for approximately 594 employees. They must stay abreast of current federal and state regulations, coordinate records with employee insurance records and process any authorized special withholding requested by individual employees.

Insurance: All records for the employee group life, health, dental and disability insurance program are maintained and processed by this office. The designated agent assists employees with information necessary to maintain the benefits of the insurance program. All worker compensation and risk management claims are also sustained by this office.

Purchasing: Fiscal Services processes all department purchasing of supplies, equipment and materials. The staff researches contract prices, prepares Office of Public Affairs requisitions and purchase orders, pre-audits invoices and delivery slips, prepares claims for payment and maintains up-to-date records of encumbered and nonemcumbered obligations. These staff members also prepare approved agency operating expenses for payment.

Inventory and Supplies: The agency maintains the receipt, processing, storage and issuing of required supplies, equipment and other materials. Furniture and equipment are tagged, added to the electronic inventory tracing system and followed through their life at the agency.

The agency maintains an on-hand inventory of printed material and supply items in order to facilitate filling requisitions. Staff members maintain a perpetual inventory of these items, and those stored in the department's warehouse facility, and work in the supply room on a daily basis to see that needs are met in a timely manner.

Travel/Reimbursement Claims: Employee claims for travel expenses and reimbursement of expenses incurred in the transaction of authorized department business are pre-audited, processed and submitted to the Office of State Finance for payment on a daily basis. Claims must comply with the State Travel Reimbursement Act and department policy. The agency travel coordinator arranges for the purchase and payment of all airline tickets for employees traveling to out-of-state meetings.

Cash Deposits: Cash monies received by various programs in the department must be deposited with the State Treasurer in a timely manner. These monies are received in the Fiscal Services office and deposited on a daily basis. Electronic transfers from letters of credit are also processed and deposited. Reconcilement of the agency clearing account and transfers to the cash funds are processed monthly.

Federal Payments to Schools: Reimbursements claims from schools for federal program funds and Johnson-O'Malley Indian Education funds are processed and distributed through this office. Fiscal Services monitors funds, accounts, programs and cash balances for all federal programs daily, prepares quarterly federal reports and assists schools in charging indirect cost.

Budget: As required in 70-3-104, the agency prepares a budget work program, requested budget and allotments. Staff members follow the legislative process on a daily basis and work closely with the state superintendent to see that appropriation and budget procedures serve department needs effectively.

Legislative Reports: As part of the appropriations and budget process, the legislature requests financial reports for the Administrative and Support Functions portion of the agency budget. These are prepared by the Fiscal Services office and serve as a source of information for the agency operating appropriation.

Building Maintenance: Fiscal Services acts as liaison between the department and the Capitol Improvement Authority for maintenance and operation of the physical plant. Staff members also coordinate requests for installation and repairs of telephone services.

PERSONNEL SERVICES

This office is responsible for a centralized personnel and affirmative action program following policies set by the State Superintendent of Public Instruction and approved by the State Board of Education. Our responsibility is to obtain and retain the best possible staff to carry out the ultimate goals of education.

State Superintendent Gerald E. Hoeltzel's philosophy is to select the best possible person for each position in the department based on job-related qualifications and individual abilities without regard to race, color, national origin, ethnic background, political party, religion, age, sex or handicap.

Duties of the section are: to ensure that all requirements of federal and state laws and regulations applicable to employment are met, and that persons have been appointed and employed in accordance with the State Personnel Act; to establish job classifications and specifications; assist with annual budgets and costs for various federal projects; advertise positions, receive and process applications for employment; conduct interviews; transact all job status changes; prepare personnel reports and surveys; and maintain liaison with the Oklahoma Office of Personnel Management, Oklahoma Merit Protection Commission, other state agencies and civil rights groups.

All permanent sick and annual leave records are calculated monthly and maintained in Personnel Services. Longevity dates are established and adjusted when necessary, and longevity pay is calculated each month. The Affirmative Action Plan is revised annually by Personnel Services, approved by the Office of Personnel Management and the State Board of Education, and distributed to all employees.

The State Department of Education presently has 548 employees to serve the public schools of Oklahoma and the general public. Employees are provided a personnel policies manual approved by the State Board of Education, written and distributed by this office. All new employees are given orientation and an Employee Handbook by the director of Personnel Services. A file is maintained on all current and past employees.

Some of the goals of the personnel office are to improve communications within the department and to help motivate employees toward common educational goals; to know as much as possible about the inner workings of the State Department of Education, the priority goals and the goals of each section, and to help further these goals in any way possible.

FINANCIAL SERVICES DIVISION

The assistant superintendent for finance in the State Department of Education is also the director of finance for public schools. The director of finance is assisted in the performance of duties by an informational representative.

For administrative purposes the Finance Division is divided into four separate yet interrelated sections: Auditing; State Aid; Teacher Personnel Records; and Transportation, Annexation and Consolidation. These sections work in harmony with each other and the division administration to service the several functions of the Finance Division and to best accommodate the public schools of Oklahoma.

The Finance Division is charged with the responsibility of allocation, disbursement and accounting for those monies appropriated by the legislature for public schools. Added to this responsibility is the function of acting as a consultant to many publics including public schools, patrons, local boards and legislative committees. The division is called on regularly to make interpretations of school law and State Board of Education policy.

The division plays a leadership role in developing for the State Board of Education a detailed budgetary request to the governor's office describing the program needs of common education for the ensuing year and recommending the appropriations necessary to finance the request.

After the close of the fiscal year, the division is deeply involved in the compilation of data for the *Annual Report of the Oklahoma Department of Education*. This statutory required report is made after the *Estimate of Needs and Financial Report* of each school district is researched and processed.

Each July, the Summer Workshop for School Administrators is held in Oklahoma. This two and one-half day workshop speaks to the most critical needs in school administration. Approximately 900 school administrators attend this workshop each year.

The personnel of the division make from eight to 20 presentations across the state addressing current school legislation in group situations.

The division communicates with public school administrators on a regular basis concerning any and all changes in the state's financial situation that will have an effect on local district finances. Personnel meets with many county and district educators each year for staff development services and as a consultant as requested. Intradepartmental communication is vigorously pursued in order to keep abreast of current policy and educational activity.

The Finance Division is the official repository of the *State Board of Education Regulations for Administration and Handbook on Budgeting and Business Management*. The division makes recommendations for periodic review and revision and keeps a supply on hand for schools, finance classes and the general public. The department also has a collection of business form samples and other items useful to the local school business office. On occasion workshops are conducted for support persons in the school business office as well as orientation conferences for new independent treasurers.

During the year the Finance Division processes approximately 25,000 requests for student transfers from one school district to another. This number includes both regular and emergency transfers.

A new task for the Finance Division has been the development, training and implementation of the new financial accounting system, the Oklahoma Cost Accounting System. The legislatively mandated system is to be in place in all the school districts in the state by the beginning of the 1991-92 school year. The timelines indicate that all school districts will account for costs by curricular subject area for the 1991-92 school year, and subsequent years.

Interagency communication is vital and on-going in the Finance Division. Informational exchanges among the several departments of state government are essential to secure reliable data from the Tax Commission, the budget office, and the state auditor's office. The state treasurer is most important in the prompt and accurate disbursement of monies to the schools.

The sections in the Finance Division are high production units engaged in technical and sensitive activities. The distribution of funds, the experience records of teachers and support personnel, and the safety of bus riders, coupled with business management, accounting and reporting are demanding on the personnel involved and have resulted in high credibility.

AUDITING SECTION

The Auditing Section provided services to education during the 1988-89 school year which assisted in ensuring that public funds were properly distributed to and expended by school districts in compliance with state and federal statutes and regulations.

Internal auditors audited the salaries paid to the teachers in each school district to determine that each teacher received the minimum salary required by law and that each substitute who taught in excess of 35 days was certified. These auditors also performed summer lunch program audits in accordance with federal regulations. Special assignments delegated to our auditors included reviews of accounting records and procedures utilized by the schools in their assigned areas and the investigation of complaints from patrons regarding alleged irregularities in accounting practices or the expenditure of district funds. When irregularities were found to exist, reports and recommendations were made to the State Board of Education. The internal auditors performed audit reports on all state grants awarded to local school districts for the prior year.

The Auditing Section received and processed audits performed by accreditation officers on daily attendance, membership and transportation records maintained by each school district. These audits verify figures which are used in calculating a part of the state aid distributed to schools. Some of the school districts requested additional state funds based on an increase in daily attendance. The accreditation officers did a mid-term audit on each school district that made application for a mid-term adjustment.

Emergency transfers for all counties are processed and filed by the Auditing Section. Computer records are maintained on these emergency transfers as well as all regular transfers.

Enrollment and final attendance forms for all special students are processed, computerized and filed. Any dispute concerning the legal residence of a special student is resolved by the Auditing Section. Attendance for these students is certified to the proper school district at the end of the fiscal year.

Several complaints were processed concerning alleged illegal students attending other districts without legal transfers. State aid is withheld from these school districts until the county superintendent is notified and then makes a ruling on the legal residence of these particular students. Any question as to the place of residence of any pupil shall be decided by the county superintendent of schools of the county in which the pupil contends to reside.

Oklahoma statutes require an annual financial audit on all school districts in the state to be performed by independent auditors. Federal statutes also require compliance audits on each school district which receives in excess of $25,000 in federal assistance in any fiscal year. The Auditing Section has the responsibility of reviewing these independent audits, evaluating audit comments and determining if these audits meet standards of state and federal statutes and regulations. In addition, the Auditing Section corresponds with local school officials and State Department of Education federal program administrators on each school district which has operational deficiencies in their accounting systems and/or violations of state and federal statutes and regulations. Time is devoted to this area by the entire auditing staff to provide the technical expertise necessary to assist the local districts in maintaining compliance with applicable statutes and regulations.

DATA SERVICES SECTION

The Data Services Section designs, develops and maintains computerized software systems for numerous departments within the education agency. The computerized systems enable each section, as it collects data from outside sources, to do online entering of data, updating, processing and reporting. Consultation service is provided by the Data staff for anticipated hardware acquisitions, hardware and software support, system design and the analysis of computer output data.

In fiscal year 89, the Oklahoma State Department of Education (SDE) embarked on a plan to automate the reporting of data. Both the Oklahoma Senate and the House of Representatives were given on-line access to the data files at the SDE. School districts were allowed to submit their annual expenditure reports on either magnetic tape or floppy disk. Eleven school districts participated as test districts for the Oklahoma Cost Accounting System. (OCAS). They submitted all of their financial data on floppy disk and magnetic tape. New programs were written to handle the editing and updating of this data.

Much progress was made in standardizing and automating federal program accounting in the areas of Special Education, Chapter 1, Chapter 2, Title II and Migrant Education. Due to the change in school accounting methods, brought about by OCAS (Oklahoma's solution for compliance with the federal financial reporting system, Handbook II R2), the programs will continue to be modified until OCAS is fully implemented.

New systems were developed for legislatively mandated programs: Driver Education, Student Transfers, Teacher Stipend Tracking, Class Size Tracking, Student Test Result Reporting and AIDS Education. Program maintenance and system enhancements were developed by Data Services staff in the following areas: Personnel, Payroll, Fiscal Services, Administration, Student Transportation, State Aid to Schools, Teacher Education and Staff Development, Teacher Certification, Teacher and Support Personnel, Community and Public Relations, Curriculum, Textbooks, Accreditation, School Plant/Energy, School Services, Adult Education and Indian Education.

Informational support to the Oklahoma Legislature is also provided by the Data Services staff. In FY89, the Data staff developed software for approximately 160 different funding projections requested during the 1st Session of the 42nd Legislature. These projections simulate alternative fund distribution proposals showing effects on teachers, students, school districts, school sizes, teacher/pupil ratios and cost.

Data Services provides information for agency staff, school administrators and the general public and assists in the interpretation of the data. Information currently supplied includes lists and mailing labels for schools and teachers; school membership, certification and teacher personnel statistics; federal program evaluations; school plant facility inventory; and expenditure and revenue data.

The Data Services Section contributed to improvements in education during 1988-89 by providing the aforementioned services. The members of this unit continued toward achieving the goals of providing useful management data, evaluation and analysis in the areas of appropriations; demographics on teachers, student and school districts; programs, expenditures and funding.

STATE AID SECTION

The primary objective of the State Aid Section is to distribute, collect and monitor reports from 609 school districts for making a fair and equitable allocation and distribution of state aid funds as provided by current legislation and State Board of Education policy. In 1988-89, the State Aid Section allocated and paid $820,636,082 from state-appropriated money to school districts and other agencies.

The allocation and distribution of state aid is a complicated process which requires a wealth of data from reports such as the School District Expenditure Report, Annual Statistical Report, Estimate of Needs and Financial Statement, and Attendance Audit. This section collects and verifies statistics from these reports that are necessary for calculation of the state aid formula as well as other line item allocations.

Once the allocation is made, a notice of allocation for each line item is forwarded to the school administrator, county superintendent, county clerk, district treasurer and clerk of the board. Appropriated money is apportioned in monthly payments and processed through the Office of State Finance for payment to districts. The Office of State Finance forwards warrants to the State Aid Section for processing and mailing to local districts.

The State Aid Section certifies to the Oklahoma Tax Commission, State School Land Commission and county treasurers the average daily attendance of each school district for apportioning state dedicated revenues such as Motor Vehicle Collections, Gross Production Tax, Motor Vehicle Stamp Tax, REA Tax and School Land Earnings.

Each year following the legislative session, a quarterly allotment request and a budget work program are prepared, which stipulate the quarter in which money is needed for disbursement to school districts. Payments to districts for line items must be made as designated by the work program.

When the Estimate of Needs and Financial Statement is completed and approved by each county excise board, copies are forwarded to the State Board of Equalization. Starting in September, designated members of our staff spend approximately three months compiling income sheets from the Estimate of Needs and Financial Statements for each district. The income sheet reflects actual collections from all sources for the prior year, current valuations, and estimated appropriations for the current year. Copies of the forms are distributed to the schools of each county through the office of the county superintendent. The section analyzes schools' Estimate of Needs and Financial Statements, together with subsequent appropriations, to assist schools in getting all available funds appropriated, as well as to prevent schools from overencumbering their appropriations.

The section monitors the development of computer software for financial accounting to ensure that proposed software meets the requirements set forth by State Board of Education regulations. The number of schools processing their financial accounting by computer increases each year.

The State Aid Section has had primary responsibility for the development, training and implementation of the new financial accounting system, the Oklahoma Cost Accounting System. The timelines indicate that all school districts will account for costs by curricular subject area for the 1991-92 school year, and subsequent years.

The section is responsible for: researching school budgets for bonded indebtedness, preparing budget analyses, preparing projections upon request, assisting in the revision of State Board of Education regulations, and assisting in the development of potential legislation relative to school district financial accounting and what effects such legislation will have on the various school districts.

TEACHER PERSONNEL RECORDS SECTION

The Teacher Personnel Section has a staff of four and maintains a record of years of experience, salaries, certificate numbers and degrees of every teacher teaching in the public schools of Oklahoma—40,000 active records.

Active and inactive records total approximately 114,000. Records in this office date back to the 1914-15 school year. The records from that time through 1930-31 are on microfilm, and those from 1931-32 through the present school year are bound in books, by county and district.

The year begins with mailing out the pre-print personnel report by August 20 to all school districts and county superintendents. They must be returned by October 15 and each one is checked and worked. This is usually completed in December.

After the pre-print is finished and all information has been updated by computer, we ask for a reprinted copy. This is called the Final Personnel. These reports are mailed to the superintendent and county superintendent of each district for their approval. After signing and notarizing this personnel, he or she returns it and we check any added teachers or changes that have been made.

A supplemental form is used for districts to report any changes that occur after returning the final copy of the personnel report. Substitute teachers teaching more than 35 days during the school year must also be reported on the supplemental form. These reports have to be checked and worked just as the other personnels.

A visible index has been set up by the Teacher Personnel Section, filed by certificate number, showing the verified qualifications, teaching experience and military service for every teacher who has taught in Oklahoma since the year 1949-50. Our records are now on computer and each employee has a desk-top terminal. By entering the teacher number, the individual teacher's record will appear on the screen showing the year, state, county, district number, months employed, position held, annual salary, qualifications and the cumulative teaching experience.

The teaching experience for former Oklahoma teachers now teaching in other states is given on request.

Information is also available to superintendents and boards of education relative to qualifications and experience of prospective employees.

Service is also rendered to the Teacher's Retirement System.

When a deficiency between the salary being paid to a teacher and the legal minimum for which that teacher qualifies is found, the Teacher Personnel Section will notify the superintendent of the district that just compensation must be made to that teacher.

The section also maintains a record of job function, current salary, number of months employed and social security number of all support personnel. These reports must be checked for accuracy.

The Teacher Personnel Records Section maintains a print-out of all entry year teachers to provide information to other sections for payment of consultant's fee.

An annual report for the Legislative Handbook on number of teachers teaching in Oklahoma and average salary is compiled, as are the salary schedules of all districts in the state as per law by Dec. 15 each year.

Throughout the school year this section is constantly checking the accuracy of the teacher personnel records.

TRANSPORTATION, ANNEXATION & CONSOLIDATION SECTION

The Transportation, Annexation, and Consolidation Section of the State Department of Education has several services that it offers to Oklahoma school districts.

Official maps of each school district are on file and kept up to date. Any time an annexation order from any county superintendent in the state is received, the official map is changed along with filing the order in a set of permanent annexation books located in the transportation section. Many annexation questions are handled through this section and annexation forms are dispersed to schools and county superintendents that need to move forward with annexations.

This section also responds to any requests for consolidation feasibility studies. A team of State Department of Education personnel visits the schools and makes recommendations on what they have found. If a school district votes to dispense and join with another district, those official records are kept in this section. The same would hold true if two districts consolidate into one. Those records and maps of the district are also on file.

In the area of school bus transportation, several areas of service are available. School bus drivers are certified in 80 workshops held across the state. They are given 25 hours of instruction and must pass written tests given by the transportation coordinators and a driving test administered by the Department of Public Safety at the end of the workshop in order to be certified. The certification is valid for five years, at which time a driver must attend a Tuesday session at one of the workshops for re-certification.

Each school bus in the state is also inspected on an annual basis to make sure it is in good operable condition for the daily routes and also for activity trips. If any bus has a deficiency, it is reported to the section by a field coordinator and the school must reply in writing when the proper repairs have been made. Each driver certification is also checked at this time along with a current physical which is required each year.

This past year, approximately 6,800 buses and driver certifications were checked by the transportation coordinators.

This section is also responsible for obtaining a price list for school bus bodies and chassis as required by the State Board of Education. This is a maximum price that a school district may pay for a school bus. These bodies and chassis must also meet all federal and state safety requirements. Close contact is maintained with these vendors to share pertinent information about upgrading safety standards of school buses.

After a school bus is purchased by a school district, a copy of the invoice is submitted to the section to make sure a district was not overcharged for the school bus.

The office personnel process all the information received from the school bus driver training workshops, inspections and accident reports. This information is dispensed in safety reports, statistical reports, help in family estates, in information to attorneys, oil companies and school districts, and is used as expert information and sometimes testimony in the courtroom.

This year, 4,500 school bus driver certificates along with their driving records will be processed. Sixty-eight hundred school bus inspections will be put in the data bank along with 270 accident reports. This information is not only used by the State Department of Education, but also by legislators, members of the media, individual school districts and several national safety organizations.

The Transportation Section helps schools interpret state law as well as State Board of Education regulations to get their most precious commodity, the children, to and from school as safely as possible.

Federal/Special Services

FEDERAL/SPECIAL SERVICES PROGRAMS DIVISION

Federal funds provide services to many segments of the educational community where special needs or problems exist. Many of the federal programs are designed to serve in the alleviation of problems identified by Congress to be of a national interest and some are aimed at regional or state problems. Federal funds are supplementary to state and local resources and were never intended to be a replacement.

Approximately 6 percent of the revenue available for education in the public schools of Oklahoma in 1988-1989 came through 22 program grants. This percentage has been as high as 13 percent in FY66 and FY68. The Federal/Special Services Programs Division of the State Department of Education is responsible for administering and monitoring the programs initiated in the 22 program areas. In 1988-89 the state education agency administered grants to Oklahoma local education agencies amounting to aproximately $95.8 million. This does not include the funds received by local education agencies directly from the federal government for Indian education, child nutrition programs, vocational-technical education, and bilingual education.

The Federal/Special Services Programs Division of the State Department of Education provides technical assistance to local education agencies in all program areas through workshops, printed information and consultants. This division has a full-time equivalency of 118.5 professional and support staff. The cost of administering the federal and state programs assigned to this division for providing workshop and technical assistance to local education is less than 5 percent of the appropriated funds.

The categorical nature of federal financial assistance programs administered by the Federal/Special Services Programs Division imposes that companion funds be used to achieve specific objectives. The first responsibility of the State Department of Education is to prepare and develop state plans of operation which are subsequently approved by the U.S. Department of Education. A state plan is an administrative pattern for state operation and must be consistent with the federal law and federal regulations. Subsequently, the State Board of Education, upon the recommendation of the Federal/Special Services Programs Division, approves state regulations for program implementation. Such regulations must be consistent not only with federal law, but also state law, and State Board of Education policies.

Section directors have the prime responsibility for preparing information relating to these programs, also application forms and other documents necessary for school district utilization. A section administrator typically prepares and disburses guidelines, application forms and related materials; receives applications from school districts, and recommends their approval to the State Board of Education; works with the Fiscal Services Section in disbursing funds; monitors local projects, assists in evaluating the success of programs funded from federal sources and inter-relates these programs with programs funded from other sources.

Besides the categorical nature of the federally financed programs, they inherently serve as catalysts for change in the process of elementary and secondary education methods thus dramatically encouraging departure from tradition. Quite appropriately, these funds are to be used to supplement and not supplant state and local funds thereby commanding that districts maintain their financial effort.

ADULT EDUCATION/ COMMUNITY EDUCATION/LITERACY

The Adult Basic Education program provides for the teaching of basic courses to all adults who have not achieved the ninth grade level in education. People attending these classes must be 16 years of age, except in special cases, and must not be attending public schools.

The Adult Basic Education program in Oklahoma is designed to meet the individual needs of adults. Through this program, adults are provided the opportunity to acquire knowledge and become proficient in using skills that will assist them in becoming better citizens, better employees, better homemakers and more productive individuals.

The Adult Basic Education program deals with the total concept of continued learning for personal effectiveness and good living attitudes, knowledge and skills. Adult Basic Education is administered by the State Department of Education through 40 adult learning centers. A learning center is basically an area (building, room or rooms) where facilities, materials, personnel and students come together to service the educational needs of individual adults on a scheduled or unscheduled basis. It may be used by one adult for enrichment, another for reinforcement and another for remediation. The learning center is for all adults 16 years and older who want and need educational improvement.

Through the Adult and Community Education/Literacy Section, the State Department of Education issues certificates of high school equivalency to adults who make application for the GED test through an adult learning center. Applicants must be 18 years of age or older and not attending public schools. A 17-year-old may take the test with permission from his/her legal guardian and the high school principal or superintendent of the school in the district in which the student lives.

In this program during 1988 there were 5,801 certificates of equivalency issued to people who had not received a high school diploma. Since 1965, the beginning of the program, there have been 114,947 high school equivalency certificates issued in the State of Oklahoma through the Adult Basic Education program. The program is funded 85 percent by the federal government and 15 percent by the state.

The Adult and Community Education/Literacy Section also administers the Community Education and Community Literacy program.

Community education is based on the philosophy that all citizens have an inherent right to participate in their community to the maximum of their ability and to have the opportunity for self-fulfillment during all stages of life.

The Oklahoma State Department of Education considers the community education program an excellent opportunity to foster greater efforts at meeting the special needs of many target groups in Oklahoma and an opportunity for the schools and communities to build a closer liaison for mutual benefits.

The FY88 appropriation of $401,000 funded 59 programs: 44 continuations and 15 new programs. These funded LEAs will serve in excess of 204,992 participants in the coming year.

The community education concept was sanctioned as an official part of the State Department of Education in October 1977, with the employment of the first state coordinator of community education with federal funds.

Community education funds provide for the improvement and expansion of existing K-12 programs. Community education in Oklahoma provides the incentive for some communities to provide a climate for lifelong learning. A major benefit is that of weaving together the facets of a student's environment—the home, the school and the community.

The purpose of a Community Literacy Program is to assist individuals in acquiring reading skills necessary to enable them to further their education and become productive citizens.

The State Legislature appropriated $200,000 to be awarded to school districts on a competitive basis, based on criteria and rules established by the State Board of Education.

The funds must address either of two distinct areas of need: (1) children experiencing difficulty learning to read or (2) adults who cannot read at a functional level. Functional level is defined as below the fifth-grade level.

The appropriation of funds for literacy programs will be divided equally between the two need areas.

The applicant shall agree to utilize the funds for new approaches in addressing the literacy needs of the identified population.

Due to the limited appropriation of funds for this effort, consortiums of school districts and school districts which act as the local education agency (LEA) for one of the 40 adult learning centers in Oklahoma are selected to offer this service.

Literacy programs were administered in 17 school districts and one consortium consisting of four school districts in Oklahoma county in FY89.

COMPENSATORY EDUCATION SECTION

The Compensatory Education Section, more commonly called the Chapter 1 section, administers federally funded programs under Chapter 1 of the "Augustus F. Hawkins—Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988". The major goal of the Compensatory Education Section is to assist local education agencies to design programs resulting in an improved achievement level of children residing in and attending eligible Chapter 1 attendance area schools, of delinquent children residing in state institutions and children of migrant farm workers.

In fiscal year 1989, this section administered the following types of Chapter 1 programs: 592 Basic Chapter 1 programs, 4 Delinquent and Correctional programs, and 33 Migrant Education programs. These Chapter 1 projects were planned and implemented on the basis of identified student needs as revealed by an annual needs assessment. Project components consist of academic programs of remedial reading, mathematics and language arts.

The state education agency receives an allocation for each of the Chapter 1 programs. These funds are then allocated to participating school districts or other state agencies, which in turn develop applications stating the proposed expenditures of allocated funds. During fiscal year 1989, Oklahoma's total Chapter 1 grant award was $41,798,721. This grant award was distributed to local school districts in the following amounts: $1,203,051 to schools implementing programs for children of migrant farm workers; $177,802 for programs assisting delinquent children in state institutions; $40,056,976 for programs assisting children attending eligible Chapter 1 attendance area schools; and $360,892 for state administration.

In seeking to achieve its goal, the Compensatory Education Section assists school administrators with the process of identifying children in need and designing programs of instruction to meet those needs. The state education agency staff approves the local education agencies' applications, provides program improvement assistance, assists in program evaluation and monitors program activities. Monitoring of Chapter 1 programs provides an opportunity to observe the daily operations of each program and identifies areas of noncompliance with federal statutes as well as federal and state regulations and guidelines, and provides technical assistance to bring programs into compliance.

CHAPTER 2

On April 28, 1988, the President signed into law the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, Public Law 100-297. Title I of that Act amends the Elementary and Secondary Education Act of 1956 (ESEA) to include a number of new and reauthorized federal education programs. Chapter 2 of Title I of the ESEA, entitled "Federal, State, and Local Partnership for Educational Improvement," reauthorizes Chapter 2 through September 30, 1993.

In reauthorizing Chapter 2, Congress recognized that the "block grant" concept has been successful in achieving the goals of increasing local flexibility, reducing administrative burden, providing services for private nonprofit school students, encouraging innovation and contributing to the improvement of elementary and secondary education programs. As a result, the basic framework of Chapter 2 was retained by the reauthorization. It places the decision making at the state and local levels.

However, in reauthorizing Chapter 2, of ESEA, Congress responded to criticism that Chapter 2 of ECIA was unfocused, provided insufficient accountability and that it sometimes resulted in funds being used for general education purposes. Congress also sought to make Chapter 2 a better vehicle for school improvement by recasting the uses of funds in general terms, but with an identifiable theme of improving quality and promoting innovation. A more targeted definition of permissible use of funds under Chapter 2 makes clear that the goals of Chapter 2 should be consistent with the traditional federal role in education: that of protecting under-served populations and addressing national priorities, including reform and improvements.

The Act includes provisions for the participation of students enrolled in private nonprofit schools. An annual allocation is calculated for their participation; however, it is based on those who will actually participate.

The State Education Agency (SEA) must allocate not less than 80 percent of the block grant to LEAs and calculate not less than 80 percent of the LEA allocation on the basis of relative enrollments of the previous fiscal year. An SEA must provide an "adjusted allocation" for high-cost students, but only to LEAs that serve the greatest numbers or percentages of those students. The three criteria specified for adjustment purposes are: a) children living in areas with a high concentration of low-income families; b) students from low-income families (LIF); and c) students living in sparsely populated areas.

The Chapter 2 formula in Oklahoma distributes an allocation to LEAs in which 85 percent is based on average daily membership (ADM). An LEA serving 20 percent or more or that has 100 or more LIF students will receive an adjusted allocation on the basis of the LIF factor. An LEA may also qualify for an adjusted sparsity factor if the number of students per LEA causes it to rank among the bottom 80 percent in student density.

The Governor appointed a 28-member Chapter 2 State Advisory Committee that is representative of Oklahoma educational interests. This committee is active in advising the SDE on the formula for distributing Chapter 2 funds to LEAs and on administration, evaluation and implementation of the program.

Subpart 3, Section 1531 of ESEA Chapter 2 provides that funds allocated for use under this chapter shall be used in the following six program areas. Two programs are followed by the Congressional Intent of the law which serves to further clarify the refocusing of this program and the uses of funds.

Local Targeted Assistance Programs:

1. Programs to meet the educational needs of students at risk of failure in school and of dropping out and students for whom providing an education entails higher than average costs;

2. Programs for the enhancement of basic skills through the acquisition and use of instructional and educational materials, including library books, reference materials, computer software and hardware for instructional use, and other curricular materials that would be used to improve the quality of instruction; however, a purchase in and of itself does not constitute a program and is no longer authorized by the Act.

Congressional Intent: Funds may be used to support innovative instructional programs, with curricular materials, library books, reference and other instructional materials and equipment which show promise for improving student achievement in basic skills (including reading, writing and computational skills (and other critical subject areas, such as science and mathematics.)

3. Innovative programs designed to carry out schoolwide improvement, including the effective schools program (ESP) purposes through activities outlined as follows:

(1) plan, implement, support, evaluate, revise and strengthen effective schools programs;

(2) plan, conduct training and other professional development activities for teachers, administrators and other education personnel on the implementation of ESP;

(3) provide technical assistance and promote state and local education agency awareness of effective schools research, model programs and implementation;

(4) develop and implement systems to evaluate and analyze effective schools programs;

(5) improve parent and community involvement/participation as part of an ongoing ESP;

(6) support model and demonstration programs related to effective schools programs; and

(7) develop and disseminate educational materials related to effective schools programs.

For the purposes of this chapter, the term "effective schools programs" means school-based programs that may encompass preschool through secondary school levels; that have the objectives of (1) promoting school-level planning, instructional improvement and staff development; (2) increasing the academic achievement levels of all children and particularly educationally deprived children and (3) achieving as ongoing conditions in the school which include the following factors identified through effective schools research as distinguishing effective from ineffective schools:

(A) strong and effective administrative and instructional leadership that creates consensus on instructional goals and organizational capacity for instructional problem solving;

(B) emphasis on the acquisition of basic and higher order skills;

(C) a safe and orderly school environment that allows teachers and pupils to focus on academic achievement;

(D) a climate of expectation that virtually all children can learn under appropriate conditions; and

(E) continuous assessment of students and programs to evaluate the effects of instruction.

4. Programs of training and professional development to enhance the knowledge and skills of educational personnel, including teachers, librarians, school counselors and other pupil services personnel, and administrators and school board members;

5. Programs designed to enhance personal excellence of students and student achievement, including instruction in ethics, performing and creative arts, humanities, activities in physical fitness and comprehensive health education, and participation in community service projects;

Congressional Intent: In adding "personal excellence" as an allowable use of Chapter 2 funds, the Congress recognizes that the whole child must be addressed in terms of his/her education, health and motivation. Personal excellence programs are based on partnerships or coalitions of public and private organizations who commit to pool their expertise and resources. The goal of these programs is to create an integrated school curriculum including basic education, health and physical fitness, and motivation through community service.

It is hoped that through this community-supported effort to influence at-risk youth through a variety of activities that meaningful changes will occur in their lives; that the expectations of the community for these young people will be raised; and, as a result, their own goals will be raised and more likely achieved.

6. Other innovative projects which would enhance the educational program and climate of the school, including programs for gifted and talented students, technology education programs, early childhood education programs, community education and programs for youth suicide prevention.

Participation in Chapter 2 is voluntary. The average annual participation is 585 LEAs; 10 percent of the participating LEA programs are monitored annually by the Chapter 2 staff. The SEA is required to submit annually to the Secretary of Education a report covering the use of Chapter 2 funds by the SEA and its LEAs, including the types of services provided and the students to whom the services were provided. In 1992, the SEA will evaluate the effectiveness of state and local programs conducted with Chapter 2 funds. Oklahoma's FY89 Chapter 2 grant was $6,156,046, of which $4,924,837 was allocated for LEAs.

Chapter 2 offers competitive grant opportunities on a recurring basis and sponsors an annual Dissemination of Information Conference on exemplary educational practices from the SEA's 20 percent Discretionary Chapter 2 Funds. Two Proposal Writers Conferences held to assist LEA personnal in application development were well received.

INDIAN EDUCATION SECTION

The position of the Indian Education Section of the State Department of Education is that of educator, counselor, leader, advocate and friend of the Indian student in Oklahoma. It verifies student eligibility for enrollment in specific programs, maintains financial records of programs being implemented in the schools and provides technical assistance to the schools and the Indian parent committees. It establishes communication links to maximize involvement by parents, tribal leaders and ultimately, the students themselves, in their own education.

The Johnson-O'Malley program for the Creek and Osage Nations and the Northeast Eight Tribes is administered through the Indian Education Section, whose funds are provided by a contract with the Bureau of Indian Affairs. Eligible students must show proof of tribal membership or their degree of Indian blood.

In the implementation of P.L. 100-297, Title V-C, we act as liaison and provide technical assistance to schools and parent committees, furnish inservice training for staff and work in the area of curriculum development. The section conducts an annual student leadership camp, a statewide Indian student art contest and training sessions for paraprofessionals, parents, teachers and counselors. Indian Parent Committee training is ongoing with annual areawide conferences in federal regulations, designing program components, developing applications and working with schools and Indian parents in cost effective, meaningful academic experiences for Indian students.

The Indian Education Section's effort is accomplished through a director, an administrative assistant, a coordinator of accounting and reporting and five field-based program facilitators, who work in areas with a high concentration of Indian students, serving 325 school districts in 62 counties, for a total of 67,238 students of Indian descent.

EESA TITLE II

On Aug. 11, 1984, the President signed into law the Education for Economic Security Act (P.L. 98-377), 98 Stat. 1267, 20 USC 3901.

Title II of the Education for Economic Security Act (EESA) provides financial assistance to states to improve the skills of teachers and instruction in mathematics, science, computer learning and foreign languages; and to increase the access of all students to such instruction.

The primary focus of Title II is on training, retraining and inservice training for elementary and secondary teachers of mathematics and science. If all training, retraining and inservice training needs of the district's math and science teachers have been met, then the district may request a waiver for use of the funds for mathematics and/or science instructional materials and equipment, training in computer learning and instruction (limited to 30 percent of allocation), and/or training in foreign languages (limited to 15 percent of allocation).

The initial grant award of program funds for elementary-secondary education was received in late May, 1985, and the program was implemented June 1, 1985.

The state's allocation is based on the number of children, ages five to 17 inclusive, in the state relative to the number of those children in all states based on the most recent satisfactory data available from the Bureau of the Census.

To receive initial funds, the state submitted a state plan in accord with program guidelines. The state plan, developed cooperatively by the State Department of Education, State Department of Vocational-Technical Education, State Regents for Higher Education and the governor's office, was submitted by the governor's office.

The statewide assessment of need was completed and submitted in summary form to the secretary, U.S. Department of Education, along with an updated, revised state plan to fulfill requirements to receive second-year funds.

Program regulations specify that 70 percent of the state's allocation is allocated to the state educational agency (SEA) for elementary-secondary education. Thirty percent of the state's allocation goes to the Regents for Higher Education for use in institutions for higher education.

Regulations specify how the elementary-secondary funds are to be used. Seventy percent of the elementary-secondary funds are allocated to local school districts on a formula basis. Fifty percent of the district's allocation is distributed according to the relative number of children enrolled in public and private schools within the district, and 50 percent is distributed according to the same proportion as funds under Chapter 1 of the Education Consolidation and Improvement Act (ECIA) of 1981 are distributed to local educational agencies

(LEAs). Twenty percent of the state's allocation of elementary and secondary funds is used to fund exemplary/demonstration trict projects and/or dissemination of information about exemplary/demonstration projects to LEAs throughout the state. The SEA must use at least five percent of the elementary-secondary funds for technical assistance to LEAs and may use up to five percent of program funds for the required state assessment of need and program administration.

Each district submitting an initial application for the allocated funds must complete an assessment of need relative to the eligible content areas and budget funds to address identified needs.

During the program's initial year, the 1985-86 school year, needs assessment data was submitted by 281 school districts and 258 districts applied for their allocation of funds. Most of the districts which did not apply are small districts with very small allocations. Districts submitting needs assessment data represented 74 percent of the state's student average daily membership (ADM) while districts making application for their allocation of funds represented 72 percent of the state's student ADM. Thirteen exemplary/demonstration projects were funded.

Funds for the participation of private school children and teachers are provided through participating local public school district allocations. Area vocational-technical schools have a per-pupil allocation calculated for students enrolled in vocational-technical education from participating public school districts.

Second-year applicants for program funds completed a brief evaluation report on the use of first-year funds and budgeted funds to address needs identified in the state assessment of need. Needs were identified in all eligible content areas for additional training, retraining, inservice training and instructional materials and equipment.

In the program's second year (the 1986-87 school year), 201 districts completed applications for allocations of funds. Nine exemplary/demonstration/dissemination of information projects were funded.

Although program funding for the second year was reduced to 43 percent of the first year's amount, third-year funding was increased 46 percent with 236 districts applying for their allocation of funds. Statewide workshops were offered by the State Department of Education through exemplary/demonstration/dissemination of information Title II funds in the subject areas of Math/Computer Learning, Science and Foreign Languages.

During the fourth program year, 289 districts applied for their allocation of funds. A follow-up series of statewide exemplary/demonstration/dissemination of information workshops was offered by the State Department of Education in the subject areas of Math, Science, Computer Learning and Foreign Languages.

Homeless Education

The Title II office also administers educational programs for the homeless as required by the Stewart B. McKinney Homeless Assistsance Act of 1987 (P.L. 100-77).

Literacy training and basic skill remediation opportunities are available to eligible homeless adults through Adult Learning Centers in Oklahoma City, Tulsa, Lawton, Muskogee and Chickasha.

As required by the State Plan for the Education of Homeless Children and Youth, the State Department of Education is working cooperatively with the Oklahoma Department of Commerce and Community Action Agencies to survey school districts, homeless shelters and other service providers to determine the number and location of homeless children and youth.

MULTICULTURAL EQUITY PROGRAMS

The overall goal of Multicultural Equity Programs is to help all students reach their potential. Educational options should not be limited by sex, age, ethnicity, native language, socio-economic level or handicapping condition. Multicultural Equity Programs provide Oklahoma educators with appropriate technical assistance, teacher training activities, and resources to promote equal education opportunity in the state.

Multicultural Equity Programs consist of the following five federally funded projects: Bilingual Education (Title VII ESEA), National Origin (Title IV-CRA) and State Legalization Impact Assistance Grants

(IRCA-1986 P.L. 99-603), administered by the Bilingual Education and National Origin Section; Race Desegregation (Title IV-CRA), administered by the Human Relations Section; and Sex Desegregation (Title IV-CRA), administered by the Educational Equity Section. The following is a summary of purposes and services available from each of these four individual projects.

BILINGUAL EDUCATION/ NATIONAL ORIGIN

The Bilingual Education/National Origin Section has the responsiblity of implementing Title VII of the Elementary and Secondary Education Act of 1965, as amended and Title IV of the Civil Rights Act of 1964 (national origin desegregation) and P.L. 99-603 of the Immigration Reform and Control Act of 1986. Although these projects have separate funding sources, and there are some differences in assisstance offered and target groups served, they share the same basic purpose--to assist school districts and other state organizations in meeting the needs of limited English proficient (LEP) persons.

During the 1988-89 school year, 32 Title VII projects were funded in Oklahoma with a total allocation close to $4 million. Twenty-six projects directly served over 3,000 students from preschool through 12th grade representing Asian, Hispanic, Native American and other language groups; Native American programs comprised the majority. Six projects were funded to train educational personnel and parents of LEP students and the State Department of Education (SDE) was funded to collect data and provide technical assistance and training.

The goals of the Bilingual Education Project are to collect, analyze and report data on Oklahoma's population of LEP persons and the educational services provided or available to those persons, and to provide technical assistance for activities designed to improve the effectiveness of programs for LEP persons in the state. This assistance is provided upon request and based on needs identified by Title VII grantees as central to meeting project goals. Services are also targeted to build capacity within the SDE as well as Title VII projects and other organizations serving LEP persons.

Services available through the Bilingual Education Project include: technical assistance to Title VII projects in such areas as data collection, language assessment, program implementation, staff training, materials development, capacity building, program evaluation and others identified by the section's Needs Assessment Survey. The section coordinates services of technical assistance and evaluation with support service centers across the nation to assist Title VII and non-Title VII entities serving LEP persons. Additional services provided are acquisition and distribution (on loan basis) of appropriate supplementary instructional and resource materials, program development assistance to districts seeking Title VII funds, and other assistance pertaining to language acquisition and second language learning.

The National Origin Project provides technical assistance and training to districts with language minority/limited English proficient students to ensure that students whose dominant or primary language is not English are not limited in their participation in educational programs by a lack of proficiency in English. Assistance is available to school boards and other responsible governmental agencies impacting the education of this target group.

Services available through the National Origin Project include technical assistance in the development or implementation of activities or the development of curriculum materials for the direct instruction of students of limited English proficiency, to afford them a full opportunity to participate in all educational programs. Also included are coordination of services to districts through federally funded technical assistance, evaluation, and service centers across the nation; acquisition and distribution (on loan basis) of appropriate supplementary instructional and resource materials; and collection and dissemination of information on language acquisition and second language learning issues.

During the 1988-89 school year, this project provided inservice/awareness programs to more than 2,000 educators representing over 200 local educational agencies. Participants included administrators, counselors, teachers and teacher assistants, and represented over 20 language groups. The project also provided appropriate information to more than 41,000 state and school personnel.

The State Legalization Impact Assistance Grants, under the provisions of the Immigration Reform and Control Act of 1986

(IRCA), are designed to meet the needs of eligible legalized aliens whose lack of literacy, basic English language and/or citizenship skills prevent them from qualifying for permanent resident status and U.S. citizenship as well as pursuing educational/job related goals. Specifically, the Oklahoma State Department of Education will award funds to eligible organizations of demonstrated effectiveness that will accomplish one or more of the following goals:

1. To help eligible legalized aliens meet the requirements for attaining permanent residency status, including basic literacy, knowledge of the English language, and understanding of the history and government of the United States.
2. To make available to eligible legalized aliens education and training that will enable them to succeed in school, become more employable, and otherwise realize their full potential as citizens of the United States.

The Bilingual Education/National Origin Section will continue efforts with other SDE sections and appropriate agencies for clustering of services in providing training, resources and awareness sessions for staff members on current approaches for serving LEP persons in their respective fields.

EDUCATIONAL EQUITY SECTION

The purpose of the Sex Desegregation Project, Title IV, Civil Rights Act of 1964, is to provide technical assistance to requesting local educational agencies in procedural compliance with Title IX of the Education Amendments of 1972 (P.L. 92-318), and to facilitate sex-fair educational practices in the state through inservice training for educators. Project services are available to any requesting local educational agency.

The following is a list of project services available: technical assistance with Title IX compliance; inservice training workshops for teachers, library media specialists, counselors and administrators in the areas of compliance and equity infusion into existing curriclum; and presentations at various civic organizations. These services are closely coordinated with the Oklahoma Vocational-Technical Education Division, appropriate regional technical assistance centers, and the Race and National Origin Desegregation Projects within the department.

During the 1988-89 school year, this project provided training, resources and information in the above cited areas to 200 school districts and involved more than 1,000 classroom teachers, counselors, school superintendents, principals and other school administrative staff. The impact of the training should reach approxiately 30,000 students. This project will continue to offer similar services to local educational agencies during 1989-90.

RACE DESEGREGATION PROJECT

The purpose of the Race Desegregation Project, Title IV, Civil Rights Act of 1964, is to assist local educational agencies in procedural compliance with Title VI of the Civil Rights Act of 1964 and in coping with special educational problems occasioned by desegregation.

The project provides technical assistance and training programs to any requesting local educational agency in the state. Technical assistance is provided by correspondence, telephone and direct visits to local educational agencies. Training programs are designed to meet the requesting local educational agency's identified needs. Regional and statewide workshops are also conducted which address current civil rights compliance issues and/or specific skills proven to be effective in implementing desegregation plans. The following is a list of types of workshops conducted during 1988-89: compliance and legal requirements for school districts; resource management addressing school climate/community and parental support/educational excellence and school achievement; multicultural aspects of educational equity; self-concept and school achievement. During the 1988-89 school year, the race desegregation staff conducted a statewide workshop entitled "Equal Access to Computer Technology."

This project provided services during the 1988-89 school year to approximately 200 local educational agencies representing more than 2,000 educators. Target audiences included superintendents, elementary and secondary principals, teachers, directors of elementary and secondary education, school board members, librarians, methods teachers from universities and colleges, support personnel and community persons. This project will continue to offer similar services to local educational agencies during 1989-90.

SCHOOL PLANT SERVICES

The School Plant Services Section administers a number of federal and state programs. All are facility related except for the Impact Aid Program, Hazard Communication Standard and the energy programs.

P.L. 81-815 School Construction, major disaster programs under P.L. 81-815 and P.L. 81-874, building accessibility to the handicapped under Section 504 of P.L. 93-112, and the Asbestos Hazard Emergency Response Act (AHERA), make up the federal programs.

Plan review, school inventory, four-year capital improvement planning, mobile classrooms, and technical assistance to schools in any area pertaining to maintenance and operations of buildings or grounds are offered under state programs.

Asbestos

Six people have been trained on inspection of asbestos and writing management plans. Schools are given advisory assistance for meeting the Asbestos Hazard Emergency Response Act (AHERA) requirements, and are supplied current information from the State Labor and State Health Departments. Asbestos Awareness Training for maintenance and custodial employees has been given to more than 300 people. The training is required by AHERA and lacks only information about their particular workplace to be complete. A sample asbestos management plan has been developed and distributed.

Impact Aid

This section provides assistance in completion and review of applications for funding and acts as a clearinghouse for final processing and transmittal to Washington, DC. Funds under this program are paid directly to eligible districts by the U.S. Department of Education in recognition of the impact certain activities of the federal government have on local education agencies.

In FY 1989, 347 school districts, or 57 percent of Oklahoma's school districts, received funding under P.L. 81-874, Impact Aid.

In school year 1988-89 Oklahoma school districts received $38,333,063 for Impact Aid.

Districts claimed 18,210 "A" category students and 32,251 "B" category students. Sixty-one districts are classified as "A" only; 38 as "B" only; and 212 as "A" and "B". There are 19 districts that are section 2 only with an additional 35 that are section 2 and 3. Of the 340 applicant districts, 71 are super "A" and 18 super "B".

Approximately the same number of students is expected in FY 1990 and schools—if appropriations are reduced—should receive between $25 and $30 million.

Major Disaster Assistance

Under this act, assistance is available to local education agencies that have suffered a natural disaster. In areas designated as disasters by both the governor and the U.S. President, funds may be available to repair or replace damaged buildings and contents. The section makes on-site visits, appraises damages and assists in completion of applications for funding, investigates all disasters, reviews the situation and contacts the appropriate sections of the State Department of Education for assistance. No disasters were investigated this year.

School Construction Assistance (P.L. 81-815)

Although nationwide funding is negligible and eligibility is difficult to establish, the U.S. Congress provides assistance to LEA's for building minimum school facilities, in recognition of the impact of certain federal activities. The section provides on-site review of affected LEA's, substantiates their needs, and assists in completing the application for funding.

Maintenance and Operations Training (MOPS)

Through hands-on learning experience and instruction from the MOPS Training Manual, personal and technical assistance is provided to LEA administrators, and maintenance and operations personnel to enable them to provide a more effective and attractive learning environment in their schools.

During FY 89, 10 workshops were conducted, training 704 maintenance and custodial personnel.

In addition to the 10 workshops, one statewide workshop was conducted for school plant managers, with 192 school plant managers and administrators attending.

School Plan Review

There were 179 plans reviewed for FY 89. This included 136 new construction projects and 55 remodel/renovation projects with an estimated cost of $65,145,398. Of the new construction projects, 143 were student-related facilities (i.e., classrooms, gymnasiums, physical education, cafeteria, etc.). Totals do not add since many projects include new and remodel contracts. There were 24 vo-tech projects reviewed for a combined cost of $18,147,500.

The average cost of school construction projects was approximately $48/sq. ft. for elementary standard construction; $30/sq. ft. for elementary pre-engineered construction; $39/sq. ft. for junior high/middle school standard construction; $26/sq. ft. for junior high/middle school pre-engineered construction; $43/sq. ft. for high school standard construction; and $26/sq. ft. for high school pre-engineered construction.

Building Accessibility

To enable LEA's to develop school facilities and programs which are accessible to the physically handicapped, guidance, literature and on-site technical assistance are provided upon request.

Assistance in the evaluation process for supplemental construction funds is also provided.

School Facilities Inventory Study

To aid in program development and facility planning for schools at both the state and local level, the section maintains a computerized inventory of the school facilities across the state. Information kept on file for every school includes site size and amenities, building materials and condition, as well as the characteristics of individual facilities within each school building.

The update of the school facilities inventory is an ongoing process. In most cases, much of the required information is gathered from documents submitted to the Department through the plan review process.

Common Schools Capital Improvement

To assure the development and continuance of school facilities suited to the needs of education, state law directs each LEA to develop a four-year capital improvement plan and the State Department of Education to develop a state master plan. The section provides guidance and assistance to LEA's in developing their plans.

Mobile Classrooms

To minimize the disruption of educational programs caused by a natural disaster such as fire, wind or flood, a limited number of mobile classrooms that can be used by affected LEA's for specified periods of time are available. On-site technical assistance is provided.

Technical Consultation

Section staff, which includes educators, architects, engineers, and specialists in landscaping and school operations and maintenance, are available to provide assistance to districts on-site in any of their specialty areas upon written request. Staff members have made 257 visits to school districts and provided technical assistance.

Energy Doctor

The section assists selected economically depressed, high-energy-using schools in conserving energy by using a team approach to investigate, analyze and make recommendations for corrective action in areas such as the building envelope, energy-using systems, fleet management and training of operations and maintenance personnel.

During FY89, 22 schools received the Energy Doctor program resulting in $70,000 annual savings in utility bills. These schools also received $222,000 in matching grants as a result of this program.

SPECIAL EDUCATION SERVICES

Special Education Section

"Handicapped children" means those children properly evaluated as being mentally retarded, hard of hearing, deaf, speech or language impaired, visually handicapped, seriously emotionally disturbed, orthopedically impaired, other health impaired, deaf-blind, multi-handicapped, or as having specific learning disabilities, who because of those impairments need special education and related services.

"Special education" means specially designed instruction, at no cost to the parent, to meet the unique needs of a handicapped child.

The Special Education Section assisted local schools in the provision of appropriate educational services for 64,782 handicapped students during the 1988-89 school year. This assistance included services such as: in-service; on-site reviews; technical assistance; review and recommendation of local district applications for P.L. 94-142 federal funds; review and recommendation of all special education transfers; review and recommendation of modified program requests; coordination of interagency special education related activities; processing, coordination and supervision of due process hearing and appeal reviews; review and recommendation of local school applications for homebound funding; review and recommendation of local school and state institution applications for P.L. 89-313 funding; coordination for registry and deaf-blind programming.

To aid in the timely dissemination of information, the Special Education Section developed the following publications for distribution:

Policies and Procedures Manual for Special Education in Oklahoma; Child Count Data: 1988-89; EHA-B Policies and Procedures Booklet; Serving the Learning Disabled Child in Oklahoma and *Serving the Seriously Emotionally Disturbed Child in Oklahoma.*

In the area of federal funds and related activities, the section processed and made final recommendations for a total of 331 Education of the Handicapped Act - Part B (EHA-B) and 18 Preschool Incentive Project applications; 41 Infants and Toddlers applications from P.L. 99-457 serving 113 0-2 students, and coordinated activities and funding procedures for five Title VI-C (Deaf-Blind) regional subgrants. Through P.L. 89-313 funds, the section processed applications from 33 local school districts and eight state operated institutions. The section provided inservice and technical assistance to auditors of all special education projects.

The section awarded 60 Special Education Teacher Training Grants to qualified applicants for summer training using EHA-Part D monies.

Homebound: More than 2,700 children were provided academic instruction while they were unable to attend school due to illness.

Therapy: Reimbursement was made to local schools for 15 occupational or physical therapists.

Transportation: Approximately 639 handicapped students were provided unique transportation arrangements for 1988-89.

Deaf-Blind: Payments were made to schools in educating approximately 37 students.

Physically Handicapped: This area of reimbursement helped local schools to make special provisions in regular and special classrooms to accommodate approximately 747 physically handicapped students.

Also through special services, the section called on the resources of the American Printing House for the Blind to provide large-print books, braillers, talking books, recorders, stimulation kits, and other visual devices in educating legally blind students.

REGIONAL EDUCATION SERVICE CENTER SECTION

The State Department of Education sponsors 21 Regional Education Service Centers throughout Oklahoma, thus making services available to all areas of the state.

RESCs offer the services mandated by law and the State Board of Education. Professional assistance is provided to local school districts aimed toward the improvement of instruction for students.

During the 1988-89 school year the RESCs provided basic services which included, but were not limited to the following:

Student Appraisal

The Regional Education Service Centers have the responsibility for coordinating educational screening as mandated in the Prescriptive Teaching Act of 1974.

The total number of first grade students screened was 49,291.

The RESCs also provided individual diagnostic and evaluative services for students exhibiting an exceptionality in one or more areas.

The total number of students grades K-12 individually evaluated by the RESCs as potentially handicapped was 16,766.

The number of students grades K-12 individually evaluated for gifted was 4,478.

Media

All RESCs maintained a media library for the purpose of providing a lending service. Media catalogs were available at schools throughout each region. Loan periods generally ranged from two weeks to one month.

Each RESC provided teachers with materials for meeting the needs of exceptional children. Specially designed materials were provided on a prescriptive basis to classroom teachers working with students with an identified exceptionality. Media materials were available to all regional teachers after the needs of exceptional children were met.

The total number of teachers using media from the centers was 4,084.

Individualized Learning Plans

For students identified as exceptional, RESCs provided prescriptive teaching plans for classroom teachers.

The number of individualized learning plans written for students referred for possible special education placement was 16,417.

The number of individualized learning plans written for students referred for possible gifted placement was 4,478.

Centers also provided consultations for educators and parents working with or having exceptional children.

The total number of individual consultations with teachers and administrators was 30,676.

Staff Development

The RESCs assisted in organizing and presenting workshops, conferences, institutes and other inservice programs for teachers, administrators, parents and others working with students who have special needs.

These programs emphasized the awareness, utilization and adoption of appropriate materials, learning theories, research findings and other educational topics.

The total number of group inservice sessions conducted was 507.

A close working relationship is maintained with teacher training institutions, making current and updated information readily available to students, and teachers continuing their education.

Three times each year the RESC staff participates in the administration of teacher competency evaluations.

Coordination of Educational Services

RESCs assist in the improvement of present services for students, provide leadership in expansion of education services and in curriculum development.

Interagency meetings are provided by each RESC for facilitating expanded services to students.

At the governor's request, each center coordinates two meetings a year, which provides an opportunity for agencies to exchange information regarding available services, establishes a contact person and assists in eliminating the duplication of services.

CHILD NUTRITION PROGRAMS DIVISION

This subdivision of the Federal/State Programs Division administers the federally funded Child Nutrition Programs. This office is organized into two units designated as School Programs and Non-School Programs. Each unit of the Child Nutrition Programs Division is composed of programs which give attention to specific areas as follows:

School Programs

National School Lunch Program: The objectives of this program are to make available to all students enrolled in public schools and institutions a lunch during a period designated as the lunch period; to provide nutritionally adequate meals that are acceptable to students, thus reducing plate waste; and to provide assistance to participants to ensure minimum meal requirements are met, as well as to ensure that all programs are accountable.

School Breakfast Program: The purposes of this program are to make breakfast available in schools for students who for various reasons come to school without an adequate breakfast and to increase the number of school breakfast programs by continuing to notify all nonbreakfast program schools to the availability of the program.

Special Milk Program: The purpose of this program is to encourage the consumption of fluid milk by children. Benefits are directed toward schools and institutions that do not participate in a meal service program authorized under the National School Lunch Act or the Child Nutrition Act of 1966 and/or split-session kindergarten children who do not have access to any school meal service authorized under these Acts.

Nutrition Education and Training Program: The objectives of this program are to instruct teachers and food service personnel in sound principles of nutrition education, to train food service personnel in the principles and practices of food service management and to develop classroom materials and curricula.

Non-School Programs

Child Care Food Program: The objectives of this program are to provide nutritionally adequate meal services to needy participants in public or private nonprofit institutions and private for profit institutions which receive Title XIX and or Title XX compensation for at least 25 percent of the participants enrolled, especially those located in economically needy areas, and to provide assistance to participants to ensure improvement of the overall accountability and quality of the Child Care Food Program.

Summer Food Service Program For Children: The purpose of this program is to make nutritious meals available to all preschool and school age children from needy areas; to encourage, where possible, other organized activities for children at the site locations; and to improve overall accountability and quality of the Summer Food Service Program for Children.

Special Milk Program: The intentions of this program are to ensure the availability of fluid milk to children, to reduce the price charged to children who pay for their milk and to serve milk free to eligible children under U.S. Department of Agriculture guidelines.

Annual Report

Volume 2

Dedicated to growth and excellence

**Oklahoma
State Department
Of Education**

GERALD E. HOELTZEL
State Superintendent
Of Public Instruction

Dedicated to growth and excellence

Oklahoma State Department of Education
Gerald E. Hoeltzel, State Superintendent of Public Instruction

The Honorable Henry Bellmon
Governor of Oklahoma

Members of the Oklahoma Legislature

It is no secret that a strong education system is essential to a strong economic system.

For the past several years, we have called your attention to the commitment to growth and excellence in education evidenced by partnerships between education, government, and business. Education continues to be a top priority benefiting from the efforts of citizens, local school districts, business organizations, service agencies, and institutions of higher education.

Oklahoma has always been dedicated to growth and excellence. As you read and reflect on this report, please be assured that commitment to education excellence is alive and well in this state. The partnerships that we have all nurtured, and that continue to thrive, move us ever closer to the economic prosperity we all seek.

Respectfully submitted,

Gerald E Hoeltzel

Gerald E. Hoeltzel
State Superintendent
of Public Instruction

This publication, printed by the State Department of Education Printing Services, is issued by the Oklahoma State Department of Education as authorized by Gerald E. Hoeltzel, State Superintendent of Public Instruction. 1,000 copies have been prepared at a cost of $2,272.84. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

Financial Services Division

State Aid Formula Used to Calculate Foundation & Salary Incentive Aid

1988-89

The following is the formula, as provided by law, used in the calculation of Foundation and Salary Incentive Aid. It reflects the correct amounts and factors used during the 1988-89 school year.

FOUNDATION AID

1. Weighted ADA ____________ x F. A. Factor 958.00 =$ ____________

SUBTRACT CHARGEABLE INCOME

(Valuations: Up to 12% - Down to 12%)

1987 Net Assessed Valuation
2. Adjusted Valuation x 15 Mills____________ x .015 =$ ____________

(1986 - 1987 Collections of:)
3. 75% of County 4 Mill____________ =$ ____________
4. School Land =$ ____________
5. Gross Production =$ ____________
6. Auto License =$ ____________
7. R.E.A. Tax =$ ____________
8. Total Chargeables (Lines 2 - 7) =$ ____________
9. FOUNDATION AID (Line 1 Total Minus Line 8) =$ ____________

ADD THE FOLLOWING

10. TRANSPORTATION SUPPLEMENT: (A.D.H. x Per Capita) (Transp. Factor)

____________ x ____________ x 1.39 =$ ____________

- -

SALARY INCENTIVE AID

1. 41.87 Incentive Aid Guarantee x ____________ (Dist. Weighted ADM) =$ ____________
2. ____________ Adjusted District Assessed Valuation ÷ 1000 =$ ____________
3. Step 1 (−) Step 2 =$ ____________
4. Step 3 x Mills Levied Above 15 = SALARY INCENTIVE AID =$ ____________
5. Foundation Aid plus Transportation Supplement plus Salary Incentive Aid = BASIC FORMULA =$ ____________
6. S.B. 378 Supplement =$ ____________
7. BASIC STATE AID = Basic Formula Line 5 + Supplement Line 6 =$ ____________
8. Adjustments Due to Additions and Reductions =$ ____________

TOTAL STATE AID (Line 7 + Line 8) $ ____________

STATE TOTALS

Actual 1988-89 ADA (Average Daily Attendance)	542,693.27
Actual 1988-89 ADM (Average Daily Membership)	574,615.98
Weighted ADA-Used for 1988-89 State Aid	716,047.59
Weighted ADM-Used for1988-89 State Aid	757,829.16
